**NOTICE OF UNLICENSED OPERATION**

On December 7 and 11, 2018 and January 30, 2019, an Agent from the Los Angeles Office (Los Angeles Office) of the Federal Communications Commission's (FCC's or Commission's) Enforcement Bureau (Bureau) responded to a complaint of an unlicensed FM station operating on the frequency 101.5 MHz in Los Angeles, CA. The Agent confirmed by direction finding techniques that a radio signal on 101.5 MHz was emanating from your place of business located at 1055 W 7<sup>th</sup> Street, Los Angeles, CA.

The Commission's records show that no license was issued for operation of a broadcast station on 101.5 MHz at this location in Los Angeles, CA. The Los Angeles Office investigated and determined you are the owner or operator of the unlicensed FM station on 101.5 MHz.

Radio stations must be licensed by the FCC pursuant to Section 301 of the Communications Act of 1934, as amended (Act).<sup>1</sup> The only exception to this licensing requirement is for certain transmitters using or operating at a power level or mode of operation that complies with the standards established in Part 15 of the Commission's rules.<sup>2</sup> On December 11, 2018 and January 30, 2019, the Los Angeles Agent measured the field strength of the signal on the frequency 101.5 MHz and found that it exceeded the maximum permitted level of 250 microvolts per meter ( $\mu\text{V}/\text{m}$ ) at 3 meters established under Part 15. Thus, this station is operating in violation of Section 301 of the Act.<sup>3</sup>

**UNLICENSED OPERATION OF THIS RADIO STATION MUST BE DISCONTINUED IMMEDIATELY AND MUST NOT RESUME.**

You have ten (10) days from the date of this notice to respond with any evidence that you have authority to operate granted by the Commission.
