OFFICE OF
THE CHAIRMAN

The Honorable John Thune
United States Senate
511 Dirksen Senate Office Building
Washington, DC 20510

Dear Senator Thune:

Thank you for your letter of support regarding the statutory cap on franchise fees. The Commission recently released the attached draft *Third Report and Order*, which the Commission plans to consider during its upcoming August meeting.

As you know, the Communications Act limits franchise fees to five percent of cable revenues and defines “franchise fee” to include “any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such.” 47 U.S.C. § 542(g)(1). In *Montgomery County, Md. et al. v. FCC*, the U.S. Court of Appeals for the Sixth Circuit held that the terms “tax” and “assessment” were broad enough to encompass nonmonetary exactions—such as cable-related, in-kind contributions. 863 F.3d 485, 490-91 (6th Cir. 2017). But the court held that just because the statutory definition of “franchise fee” *could* include such nonmonetary contributions did not necessarily mean that it *did* include them, and it remanded the issue to the Commission for further consideration. *See id.* at 491-92.

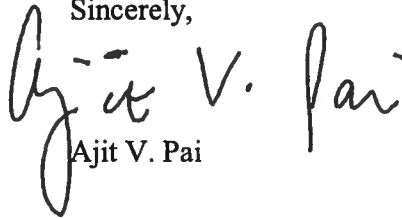

In response to this remand, the Commission unanimously issued its *Second Further Notice of Proposed Rulemaking* to consider the scope of the congressionally-mandated statutory limit on franchise fees. The Commission developed a voluminous record in response to this notice, including numerous submissions from local franchising authorities, providers of public, educational, or governmental (PEG) programming, and cable operators.

The draft order is the product of our careful consideration of this record and is consistent with the Act. Among other things, the Commission observed that Congress broadly defined franchise fees; indeed, with respect to PEG channels, it only excluded support payments with respect to franchises granted prior to October 30, 1984 as well as certain capital costs required by franchises granted after that date. 47 U.S.C. §§ 542(g)(2)(B) & (C). The draft order therefore concludes that cable-related, in-kind contributions—including PEG-related contributions—are “franchise fees” subject to the Act’s five-percent cap unless otherwise expressly excluded.
