March 19, 2020

The Honorable Carol Miller  
U.S. House of Representatives  
1605 Longworth House Office Building  
Washington, DC 20515

Dear Congresswoman Miller:

Thank you for your letter concerning the Commission’s 5.9 GHz proceeding and its potential impact on vehicular safety. We all share a desire to ensure Americans have ubiquitous access to vehicular safety options—and many safety technologies are the direct result of the FCC’s allocation of commercial spectrum for this purpose. At the same time, it is important to keep pace with technology so that we can identify and deploy underused spectrum and repurpose it as appropriate to support a broad range of consumer and safety innovations. That is why on December 13, 2019, a unanimous Commission voted to take a fresh look at the 5.9 GHz spectrum band with a Notice of Proposed Rulemaking that recognized and discussed several matters raised in your letter. The record is still open in this proceeding until April 6. I have encouraged all stakeholders to submit their views in the record, in order to help inform the Commission. Once the record has closed, we will make a judgment about how to proceed based on the submissions we have received.

Thank you for your letter. Please let me know if I can be of further assistance.

Sincerely,

Ajit V. Pai

424 Cannon House Office Building
Washington, DC 20515

Dear Congressman Rouzer:

Thank you for your letter concerning the Commission’s 5.9 GHz proceeding and its potential impact on vehicular safety. We all share a desire to ensure Americans have ubiquitous access to vehicular safety options—and many safety technologies are the direct result of the FCC’s allocation of commercial spectrum for this purpose. At the same time, it is important to keep pace with technology so that we can identify and deploy underused spectrum and repurpose it as appropriate to support a broad range of consumer and safety innovations. That is why on December 13, 2019, a unanimous Commission voted to take a fresh look at the 5.9 GHz spectrum band with a Notice of Proposed Rulemaking that recognized and discussed several matters raised in your letter. The record is still open in this proceeding until April 6. I have encouraged all stakeholders to submit their views in the record, in order to help inform the Commission. Once the record has closed, we will make a judgment about how to proceed based on the submissions we have received.

Thank you for your letter. Please let me know if I can be of further assistance.

Sincerely,

Ajit V. Pai
