Subject: RE: Verbal STA granted to City of New York to operate on frequencies 483.11875 MHz and 483.14375 MHz

Both STAs filed for the City of New York have been granted with an expiration date of June 10, 2020. See the attached reference copies for FCC authorizations WRFQ383 and WRFQ384.

0009039040 – call sign WRFQ383

0009039690- call sign WRFQ384

Please let me know if you will need to file a renewal to extend the expiration past June 10th.

Subject: Verbal STA granted to City of New York to operate on frequencies 483.11875 MHz and 483.14375 MHz

Due to the Corona Virus Outbreak, the City of New York is requesting a verbal STA based upon the need to improve emergency radio communications between the various public safety units under the frequencies (483.11875 and 483.14375 MHz) associated with locations under call signs WQFH238 (FN 0008888331) and WQFH239 (FN 0008888331) . The request for a 10 day verbal STA is granted effective April 2, 2020.

This Special Temporary Authority is authorized on a secondary non-interference basis and may be terminated at the Bureau's discretion, without a hearing, if conditions warrant.

Under no circumstances may the facility(ies) authorized herein become a hazard to air navigation or violate the terms of an international agreement or treaty. If an application for permanent authority is on file with the Commission, this action is taken without prejudice to that application.

This 10 day verbal STA **expires at 11:59 PM on April 12, 2020.**

A request for special temporary authority (STA) application will need to be filed in ULS for additional time by using the online filing system at https://www.fcc.gov/wireless/systems-utilities/universal-licensing-system.

Please contact me at 202 391-2363 or reply to this email if you have any questions about this verbal STA.
