Report No. SAT-01534

Friday March 5, 2021

Satellite Policy Branch Information Space Station Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MPL-20200904-00104 E S2981 Kepler Communications Inc.
Date Filed: 09/04/2020 11:12:41:06600
Modification to PDR/PPL

Kepler Communications Inc. requests a modification of the grant of U.S. market access for its Canada-licensed non-geostationary orbit satellite system to reflect a change in the physical design of its satellites from a 5-kg class (3U CubeSat) to 12-kg class (6U CubeSat) architecture. Kepler seeks review and approval of an updated description of the technical specification of its satellites and orbital debris mitigation plan, as required by a condition to its grant of market access.
