GU Holdings Inc.

On April 22, 2021, the Chair of the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) notified the Commission that that a 90-day secondary assessment of the application for the Pacific Light Cable Network (PLCN) is warranted because the risk to national security or law enforcement interests cannot be mitigated by standard mitigation measures. The Committee shall complete its secondary review of the application before the end of the 90-day secondary assessment period, unless the Committee notifies the Commission of an extension.

On April 26, 2021, the Chair of the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) notified the Commission that the Committee is conducting a 120-day initial review to assess whether granting the application for the CAP-1 Cable System will pose a risk to the national security or law enforcement interests of the United States, pursuant to Executive Order 13913 (85 Fed Reg 19643 (April 8, 2020)). The Committee shall complete its initial review of the application before the end of the 120-day initial review period, unless the Committee notifies the Commission of an extension or notifies the Commission it will conduct a 90-day secondary assessment.

Edge Cable Holdings USA, LLC

On April 26, 2021, the Chair of the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) requested that the Commission defer action on the request for special temporary authority for the construction of the CAP-1 Cable System while the Committee reviews the application for any national security and law enforcement concerns. The Chair will notify the Commission when the Chair has determined that the 120-day initial review period has begun, pursuant to Executive Order 13913 (85 Fed Reg 19643 (April 8, 2020)).

**REMINDER:**

Applicants must certify that neither the applicant nor any party to the application is subject to a denial of federal benefits by federal and/or state courts under authority granted in 21 U.S.C. § 862. See 47 CFR §§ 1.2001–2003.

By this notice, we inform the public that submarine cable landing license applications that are part of larger transactions involving multiple Commission licenses or authorizations may involve "extraordinary circumstances" as referenced in Review of Commission Consideration of Applications under the Cable Landing License Act, Report and Order, 16 FCC Rcd 22167 (2001) and Rules and Policies on Foreign Participation in the U.S. Telecommunications Market, Report and Order and Order on Reconsideration, 12 FCC Rcd 23891 (1997), paras. 327-28, Order on Reconsideration, 15 FCC Rcd 18158 (2000). Additionally, extraordinary circumstances result where Executive Branch agencies petition the Commission to defer action on an application pending the resolution of potential national security, law enforcement, foreign policy and trade policy issues. Accordingly, these applications may not be acted on within the 90-day review period that the Commission has established as the period of time normally required to reach a decision on non-streamlined cable landing licenses. This notice shall serve as public notice to applicants that, in these circumstances, additional time may be required for Commission review and final action. No additional formal public notice will be provided routinely with respect to specific applications in the event that the applicable review period extends beyond 90 days.
