

Washington, DC 20510

June 9, 2021

Ms. Jessica Rosenworcel
Acting Chairwoman
Federal Communication Commission
445 12th Street, SW
Washington, D.C., 20554

Dear Acting Chairwoman Rosenworcel:

We write to express our support for Lund's application to the Federal Communications Commission for reimbursement through the COVID-19 Telehealth Program. The associated application number is GRA0012560 and the OMB Control Number is 3060-1271. We are pleased to bring this proposal to your attention.

Lund offers extensive wraparound services for women and children in Burlington, Vermont and across the state, helping children thrive by empowering families to break cycles of poverty, addiction and abuse. With a proven record of successful program delivery in adoption, treatment, and family services, Lund serves as an integral partner in Vermont's prevention system.

The requested funding will support Lund's new electronic health record (EHR) platform. This platform has allowed programs to streamline patient services with partner organizations, reducing wait times and expanding the integration of medical and mental health services. This funding will also enable access to EHR data for Lund's field-based clinicians across the state. Additionally, funding will support an upgrade to Lund's internet connectivity, improving connections for clients and providers. These investments are critical in helping clients remain engaged with Lund's programs so they can maintain their recovery, custody of their children, and independence.

Thank you for your consideration of Lund's application. If we can provide additional evidence of our support, please do not hesitate to contact our offices.

Sincerely,

PATRICK LEAHY
United States Senator

BERNARD SANDERS
United States Senator

PETER WELCH
