An objection to an incumbent LEC's copper retirement notice may be filed by an information service provider or telecommunications service provider that directly interconnects with the incumbent LEC's network. Such objections must be filed with the Commission, and served on the incumbent LEC, no later than the ninth business day following the release of this Public Notice.⁴ The effective implementation date(s) of network changes referenced in standard copper retirement notices are subject to the FCC public notice periods described under section 51.333(b)(2).⁵ Notwithstanding the general requirements of section 51.333(b), incumbent LECs also may be entitled to a reduced public notice waiting period where necessary to allow the incumbent LEC to respond to circumstances outside of its control.⁶ Accordingly, given the circumstances in this proceeding, the effective implementation date for Cincinnati Bell's planned change is March 13, 2022. For purposes of computation of time when filing a petition for reconsideration, application for review, or petition for judicial review of the Commission's decision, the date of "public notice" shall be the later of March 13, 2022, or the release date of any further public notice or order announcing final action, as applicable. Should no petitions for reconsideration, applications for review, or petitions for judicial review be timely filed, the proceeding listed in this Public Notice shall be terminated, and the docket will be closed.

Information service providers and telecommunications service providers that directly interconnect with the incumbent LEC's network may file objections, and other interested parties may file comments, regarding this network change notice using the Internet by accessing the ECFS: <http://apps.fcc.gov/ecfs>. ⁴ See 47 CFR § 51.333(c).

⁵ See 47 CFR § 51.333(b)(2). In the absence of filed objections, a notice of copper retirement usually will be deemed final on the 90th day after the release of the Commission's public notice of the filing pursuant to section 51.333(b)(2). However, notice of copper retirement involving facilities that are not being used to provision services to any customers, usually will be deemed final on the 15th day after the release of the Commission's public notice of the filing. *Id.*

⁷ Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand or messenger delivered filings. This proceeding is considered a “permit but disclose” proceeding for purposes of the Commission’s *ex parte* rules.⁸ Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b).
