S&P GLOBAL INTERVIEWS SIMINGTON

WASHINGTON, D.C., February 17, 2022—On February 15, Commissioner Nathan Simington of the Federal Communications Commission spoke with David DiMolfetta of S&P Global Market Intelligence. Commissioner Simington spoke on several of his priorities, including improving rules related to protection from interference to create greater certainty for spectrum users; addressing safety concerns in wireless devices at the signal layer; and adapting regulatory approaches to launch and satellite operations to accommodate a rapidly-emerging space economy, among other topics.

Said Commissioner Simington, “It was a pleasure to speak to David about these important topics, and, truthfully, as a former bond lawyer, quite the delight to be interviewed by S&P.”

Commissioner Simington’s interview with S&P Global Market Intelligence may be found at: <https://www.spglobal.com/marketintelligence/en/news-insights/latest-news-headlines/fcc-s-nathan-simington-says-lines-between-tech-telcos-have-blurred-68900336>
