

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON

OFFICE OF THE  
CHAIRWOMAN

June 15, 2023

The Honorable Mario Diaz-Balart  
U.S. House of Representatives  
374 Cannon House Office Building  
Washington, DC 20515

Dear Representative Diaz-Balart:

Thank you for your letter of February 14, 2023 expressing support for ensuring the availability of spectrum resources to facilitate important uses of unmanned aircraft systems (UAS). As you may know, the Commission issued a *Notice of Proposed Rulemaking* (NPRM) covering the use of the 5030-5091 MHz band for UAS. In this NPRM, the Commission noted the potential of these systems for public safety purposes, such as storm recovery and first responder efforts, as well as commercial purposes, and recognized the need for additional spectrum access, in particular licensed spectrum, for command and control operations. Comments in response to the NPRM were due on March 9, 2023, and reply comments were due on April 10, 2023.

As mentioned in your letter, the Commission also released a *Seventh Report and Order and Ninth Further Notice of Proposed Rulemaking* (FNPRM) on its rules for the 4.9 GHz band. In this FNPRM, the Commission specifically sought comment on whether it should lift the existing prohibition on airborne operations in the band (in place to protect radio astronomy operations), including for UAS. Comments in response to the FNPRM were due on March 30, 2023 and reply comments were due on May 1, 2023.

Commission staff is currently reviewing the record in these proceedings, as well as holding ex parte meetings at the request of interested parties. We appreciate you reaching out to us about this important issue and will include this letter in the record for both proceedings discussed above.

We hope this is responsive to your inquiry. Should you have any additional questions, please let us know.

Sincerely,

A handwritten signature in black ink, appearing to read "Jessica Rosenworcel", is written over a horizontal line.
