Report No. SAT-01767

Friday October 20, 2023

Satellite Licensing Division and Satellite Programs and Policy Division Information Space Station Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-AMD-20231013-00251 E S3152 Planet Labs PBC
Date Filed: 10/13/2023 17:13:32:49300
Amendment

Planet Labs PBC amends its application for authorization to launch and operate a non-geostationary satellite orbit system to be known as the Tanager constellation, to reflect a decrease in the number of planned satellites from ten to four. Planet also amends the requested operational altitude range from 404-408 km to 402-435 km.
