ERRATUM

Released: November 15, 2023

By the Chief, Wireline Competition Bureau:

On November 8, 2023, the Commission released a *Notice of Proposed Rulemaking*, FCC 23-91, in the above captioned proceeding. This Erratum makes corrections to Appendix A of the *Notice of Proposed Rulemaking* as indicated below:

Paragraphs (x) through (xiii) of proposed Section 54.504(a)(1) are corrected to read as follows:

“(x) If requesting support for Wi-Fi hotspots and service for use off-premises, the school or school consortium listed on the FCC Form 471 application is only seeking support for eligible equipment and/or services provided to students and school staff who would otherwise lack Internet access service sufficient to engage in remote learning.

(xi) If requesting support for Wi-Fi hotspots and service for use off-premises, the library or library consortium listed on the FCC Form 471 application is only seeking support for eligible equipment and/or services provided to library patrons who have signed and returned a statement (physically or electronically) that the library patron would otherwise lack access but for the use of equipment and/or service provided by the library.

(xii) If requesting support for Wi-Fi hotspots and service for use off-premises, the school, library, or consortium is not seeking support and reimbursement for eligible equipment and/or services that have been purchased and reimbursed in full with other federal, state, Tribal, or local funding, or providing duplicative equipment and/or services to a student, school staff member, or library patron.

(xiii) The school, library, or consortium will create and maintain an equipment and service inventory as required by § 54.516(a)(3).”
