Description of the Planned Network Change(s):

The Consolidated Communications of Texas (OCN 2109) Lufkin DMS Switch LFKNTXXADS0 and LFKNTXXA02T, located at 321 N 1st St, Lufkin TX 75901, will be retired and removed from the network after all traffic served by this switch is migrated to the Consolidated Communications of Texas Lufkin T7000 LFKNTXXAPS2 located at 321 N 1st St, Lufkin TX 75901. Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to update records of trunk groups currently terminating to the Lufkin DMS to reflect the move to the Lufkin T7000 LFKNTXXAPS2. Carriers that are code holders for access connectivity in the Lufkin DMS Switch will be required to reposition the codes to the Lufkin T7000 LFKNTXXAPS2.

ASRs for the Lufkin T7000 must be received in order to make changes to records. All traffic for these trunk groups will be migrated to the Lufkin T7000. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Lufkin DMS Switch (on or after 01/30/2024). This will serve as a guide for interconnecting companies to update their records reflecting the new CLLI and switch type.
