0000232661	Construction Permit	FL	NEW	787199		95.9	Virginia City, NV	JULIA C. BULETTE CHAPTER NO. 1864, E CLAMPUS VITUS OF NEVADA	04/29/2024	Dismissed
From:					To:					
Comment #1 Dismissed 4/29/2024 via Public Notice for the following reasons: Section 73.807 violation with respect to the 2nd adjacent channel station KNEV-FM, Las Vegas, NV on channel 238C (required spacing = 93 km, proposed spacing = 7 km). The applicant recognizes this short-spacing and requests waiver of 73.807. However, per DA 23-642, an LPFM applicant seeking a 2nd adjacent waiver must include an engineering study demonstrating that its proposed station will not cause interference to any authorized radio service. The Bureau will dismiss any application that fails to comply with the second-adjacent channel spacing requirements which does not contain an engineering exhibit in support of this waiver, and the applicant will not be permitted to seek nunc pro tunc reinstatement of its application. The application fails to provide any engineering studies demonstrating that the proposed station will not cause interference to any authorized radio service.

From:					To:					
<p>Comment #1 Dismissed 4/29/2024 via Public Notice for the following reasons: The proposed facility is short-spaced to licensed co-channel Canadian station CINA-FM, Windsor, ON (required spacing = 66 km, actual spacing 8.9 km). Applicant proposes to use a directional antenna to protect CINA-FM, however, the 34 dBμ interfering contour crosses the border into Canada, and will cause prohibited overlap to CINA-FM, 272A, Windsor, ON, in violation of Section 4.3 of the U.S./Canadian FM Agreement. Therefore, the application is dismissed. Please note that, per Section 73.870(c), amendments may not be filed to correct such defects.</p>

From:					To:					
Comment #1 Dismissed 4/29/2024 via Public Notice for the following reasons: Violation of Section 73.807 and of the US/Mexican Broadcasting Agreement. Specifically, the proposed site is short-spaced to the third-adjacent channel allotment on Channel 249C in Ojinaga, CH, Mexico (required spacing = 92 km, proposed spacing = 91.5 km). Note that Mexico does not allow rounding of required spacings. Applicant does not address this short-spacing. Please note that, per Section 73.870(c), amendments may not be filed to correct such defects.
