### FCC Announces Tentative Agenda for September Open Meeting

WASHINGTON, September 9, 2025—Federal Communications Commission Chairman Brendan Carr announced that the items below are tentatively on the agenda for the September Open Commission Meeting scheduled for Tuesday, September 30, 2025:

**Accelerating Wireline Infrastructure Buildout** – The Commission will consider a Notice of Inquiry that would examine whether state and local statutes, regulations, and legal requirements have an unlawful prohibitive effect on the provision of wireline telecommunications services, particularly through the imposition of excessive delays and fees that impede infrastructure deployments and disincentivize investments in them. (WC Docket No. 25-253)

**Freeing Wireless Infrastructure from Unlawful Regulatory Burdens** – The Commission will consider a Notice of Proposed Rulemaking that advances its Build America Agenda by seeking comment on reforms that would free towers and other wireless infrastructure from unlawful regulatory burdens imposed at the state and local level. (WT Docket No. 25-276)

**Phone Jamming Solutions in Non-Federal Correctional Facilities** – The Commission will consider a Third Further Notice of Proposed Rulemaking seeking comment on removing regulatory barriers to deployment and viability of existing and developing technologies that combat contraband wireless device use in correctional facilities. (GN Docket No. 13-111)

**Modernizing Broadcast Ownership Rules** – The Commission will consider a Notice of Proposed Rulemaking that would advance the Commission’s quadrennial regulatory review of its broadcast ownership rules and seek public comment on whether, given the current state of the media marketplace, it should retain, modify, or eliminate any of these rules. (MB Docket No. 22-459)

**Deleting Obsolete and Duplicative Wireline Rules** – The Commission will consider as part of the In re: Delete, Delete, Delete proceeding a Direct Final Rule that would move to delete nearly 400 primarily wireline-related rules and requirements that govern obsolete technology, are duplicative, and are no longer used in practice. These rules pertain to a wide variety of now-defunct topics including regulatory reporting requirements, distinctions between wireline carriers that are no longer applied, technology that has been eclipsed, and dates pertaining to pricing, universal service, pilot programs, and equipment requirements that have long ago passed. (GN Docket No. 25-133)

**Public Drafts of Meeting Items** – The FCC publicly releases the draft text of each item expected to be considered at the next Open Commission Meeting. One-page cover sheets are included in the public drafts to help summarize each item. All these materials will be available on the FCC’s Open Meeting page: [www.fcc.gov/openmeeting](http://www.fcc.gov/openmeeting).
