Report No. SAT-01952

Friday September 26, 2025

Satellite Licensing Division and Satellite Programs and Policy Division Information

RE: Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

Modification

Capella Space Corp.

Capella Space Corp. requests authority to modify the license for call sign S3178 to alter the orbital planes authorized under its existing authorization. The applicant seeks authority to:

- raise the apogee from 600 km to 610 km; and
- change the planned orbits of three satellites from mid-inclination to polar orbits.

Capella also requests an extension of the current six-year license term. For satellites launched later in 2026, Capella requests that the license term be extended to December 31, 2034.
