There is 0.2% of cell sites reported as being out of service in the areas of West Virginia impacted by the severe winter weather.

The number of cell site outages in a specific area does not necessarily correspond to the availability of wireless service to consumers in that area. *See Improving the Resiliency of Mobile Wireless Communications Networks, Order, 31 FCC Rcd 13745, para. 10 (2016)* (recognizing the difficulties in accurately depicting the ongoing status of a wireless provider's service during emergencies). Wireless networks are often designed with numerous, overlapping cell sites that provide maximum capacity and continuity of service even when an individual site is inoperable. In addition, wireless providers frequently use temporary facilities, such as cells-on-wheels (also known as COWs), increase power at operational sites, initiate roaming agreements, or take other actions to maintain service to affected consumers during emergencies or other events that result in cell site outages.

## **Mandatory Disaster Response Initiative**

The Mandatory Disaster Response Initiative was activated for Winter Storm Fern response activities on January 23, 2026. As a reminder, all facilities-based mobile wireless providers operating in the above-referenced areas are hereby notified and required to: (1) provide for reasonable roaming under disaster arrangements when technically feasible;<sup>2</sup> (2) activate mutual aid arrangements with other facilities-based mobile wireless providers for providing aid upon request to those providers during emergencies;<sup>3</sup> (3) take reasonable measures to enhance municipal preparedness and restoration; (4) take reasonable measures to increase consumer readiness and preparation; and (5) take reasonable measures to improve public awareness and stakeholder communications on service and restoration status.<sup>4</sup>

## **Special Temporary Authority (STA)/Waivers/Extensions**

The Federal Communications Commission (FCC) may grant Special Temporary Authority (STA) to permit immediate or temporary operation of certain radio facilities during emergencies or other urgent conditions, as well as waivers to support emergency communications and service restoration.

- On January 23, 2026, the FCC Wireless Telecommunications Bureau conditionally granted Federated Wireless, Inc.'s request for a precautionary, limited, and conditional emergency waiver of sections 96.67(c)(2) and (3) of the Commission's rules governing the Citizens Broadband Radio Service.
