Report No. SES-02852

Wednesday April 15, 2026

Satellite Communications Services

RE: Applications Accepted for Filing

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations and its Policies. Final action will not be taken on any of these applications earlier than 30 days following the date of this notice. 47 U.S.C. § 309(b). All applications accepted for filing will be assigned call signs, or other unique station identifiers. However, these assignments are for administrative purposes only and do not in any way prejudice Commission action.

SES-STA-20260211-00676 Universal Space Network, Inc.
Date filed: 2026-02-11
Special Temporary Authority

This STA application was listed in the Applications Accepted For Filing PN Report No. SES-02848, released on April 1, 2026. This STA application is included in this Public Notice to reflect the update on the objective, which is to provide LEOP and TT&C support for the Sentinel-3C satellite at the center frequencies of 2075.6504 MHz (Earth-to-space) and 2254.1 MHz (space-to-Earth).

Class of Station: FES

Nature of Service: Fixed-Satellite Service

This application was listed in the Applications Accepted For Filing PN Report No. SES-02441, released on February 2, 2022. It is included in this PN to rectify clerical errors. SES-19 (S3097) was not included as a point of communication in the prior public notice.
