CORRECTED

"UNIVERSAL" WINDOW FILING PERIOD ANNOUNCEMENT

In the Report and Order, MM Docket No. 84-750, 50 Fed. Reg. 19936, published May 13, 1985, at footnote 4, we indicated that we would publish a list of the vacant FM commercial channel allotments. The Commission issued a Public Notice on May 15, 1985, listing 152 vacant FM channels for the purpose of announcing the window filing period for applications on these channels. However, because certain information contained therein needed to be corrected, that Notice was not published in the Federal Register.

The attached corrected list of 152 vacant channels will be available for application during the first filing window. The window period for filing applications on these channels will open on June 13, 1985, and close on July 12, 1985.

In addition, this window applies to existing stations desiring to modify their facilities.

This Public Notice contains the same information issued on May 15, 1985, except for the following corrections:

- The listings for Lajas, Puerto Rico (Channel 279B) and Elk City, Oklahoma (Channel 253C) are deleted.
- The listings for Gulf Breeze, Florida (Channel 237A) and Grifton, North Carolina (Channel 257A) have been added.
- The window closing date has been corrected to July 12, 1985.
- This window filing period also includes applications from existing stations desiring to modify their facilities.
- Petitions for reconsideration are pending at San Clemente, California (Channel 285A), Gulf Breeze, Florida (Channel 237A) and Bay Shore, New York (Channel 276A). These channels are available for application.

For additional information, contact the Allocations Branch, Mass Media Bureau, at (202) 634-6530, or the FM Branch at (202) 632-6908.

Total Vacant FM Channels Available for Application: 152

R to the right of the Reference Coordinates indicates that the coordinates are not center-of-city coordinates because the location of the antenna site is restricted.

@ to the left of the channel indicates that there is an ongoing rulemaking proceeding to change the channel and/or city in the Table of Allotments.

% to the left of the channel indicates that there exists a petition for reconsideration of the addition of the channel to the Table of Allotments.
