MEMORANDUM OPINION AND ORDER

Adopted: May 17, 2005

Released: May 27, 2005

By the Commission: Commissioners Copps and Adelstein issuing a joint statement.

I. INTRODUCTION

1. The Commission has before it the captioned, mutually exclusive applications of Pineros Y Campesinos Del Noroeste (“Pineros”) Centro De Servicios Para Campesinos, Inc. (“CSC”), and Iglesia De Cristo Miel De Oregon City (“Iglesia”) seeking construction permits in the Low Power FM (“LPFM”) Broadcast Service in the Woodburn, Oregon, area. In accordance with our procedures,¹ the Commission published notice of the applications’ tentative selectee status.² No parties filed petitions to deny or informal objections in response to these applications.

II. DISCUSSION

2. Before applying the mutually exclusive selection procedure preference to determine the number of merit points to be awarded to each applicant, we first ascertain the basic eligibility of the applicants. In order to further our diversity goals and foster local, community-based service, we do not allow any broadcaster or other media entity subject to our ownership rules to control or to hold an

attributable ownership interest in an LPFM station or enter broadcast-related operating agreements with an LPFM licensee. Additionally, to foster the local nature of LPFM service, we have limited eligibility to local entities during the first two years that LPFM licenses are available. Based on the complete application record, we conclude that Pineros, CSC, and Iglesia are qualified to hold an LPFM station license.

3. Mutually exclusive LPFM applications are subject to the comparative selection procedures set forth in Section 73.872 of the commission's rules.³ This procedure awards a maximum of three points based on three criteria deemed to be most relevant to predicting the applicant best qualified to provide the service for which LPFM spectrum has been allocated.⁴ Each applicant that certified that it has had an *established community presence of at least two years' duration* is awarded one point. An applicant is deemed to have an established community presence if, for a period of at least two years prior to application, the *applicant* has been physically headquartered, has had a campus, or has had 75 percent of its board members residing within 10 miles of the reference coordinates of the proposed transmitting antenna. Second, an applicant that has *pledged to operate at least 12 hours per day* is awarded one point. Third, an applicant that has *pledged to originate locally at least eight hours of programming per day* is awarded one point. For purposes of this criterion, local origination is defined as the production of programming within 10 miles of the reference coordinates of the proposed transmitting antenna.⁵ The tentative selectee is the applicant with the highest score.

4. Under this comparative selection process, the applicants are awarded the following points:

Established Community Presence. Each applicant is entitled to one point because it certifies that for a period of at least two years prior to the filing date of its application, it has existed as an educational institution or organization and has been physically headquartered, has had a campus, or has had 75 percent of its board members residing within 10 miles of the coordinates of the proposed transmitting antenna.⁶

Proposed Operating Hours. Each applicant is entitled to one point because it pledges to operate at least 12 hours per day.⁷

Local Program Origination. Each applicant is entitled to one point because it pledges to originate at least eight hours of local programming per day.⁸

Total. Accordingly, Pineros, CSC and Iglesia are entitled to three points. A time-share agreement has been submitted by Pineros and CSC. Under the terms of the agreement, CSC proposes to broadcast every day between the hours of 2:00 am and 2:00 pm local time, while Pineros proposes to broadcast every day between the hours of 2:00 pm and 2:00 am local time. We conclude that the acceptance of CSC's and Pineros' voluntary time-share agreement, which also aggregates their points, and fully

complies with the requirements of Section 73.872,⁹ would serve the public interest, convenience and necessity. The terms of this time-share agreement will also be made part of the authorization issued to each of these applicants. Thus, Pineros and CSC are the prevailing tentative selectees in LPFM Mutually Exclusive Group No. 82.

III. ORDERING CLAUSES

5. Accordingly, IT IS ORDERED, that the application of Iglesia De Cristo Miel De Oregon City (File No. BNPL-20010611ADX) IS DISMISSED.

6. IT IS FURTHER ORDERED, that the applications of Pineros Y Campesinos Del Noroeste (File No. BNPL-20010614AGZ) and Centro De Servicios Para Campesinos, Inc. (File No. BNPL-20010614AHK) ARE GRANTED.

**JOINT STATEMENT OF
COMMISSIONERS MICHAEL J. COPPS AND JONATHAN S. ADELSTEIN**

Re: Applications for Construction Permits for New LPFM Stations

We are pleased that the Commission is moving ahead to license additional low power FM radio stations. These community-based stations are licensed to churches, schools and other local organizations and can help in significant ways to meet the needs of under-represented communities. Low power benefits recording artists by providing more outlets for airplay, especially on a local or regional level. It provides community coverage in often strikingly-successful ways. To promote these local stations, we hope the Commission would also move forward on its recent proceeding on low power FM radio and consider opening a new filing window for the many noncommercial entities that want to offer new low power FM radio services wherever possible.
