

**STATEMENT OF
COMMISSIONER BRENDAN CARR
APPROVING IN PART AND CONCURRING IN PART**

Re: *Communications Marketplace Report*, GN Docket No. 22-203

When we adopted the Commission’s prior Communications Marketplace Report in 2020, I voted to approve in part and concur in part because, in my view, we could have gone further in recognizing the converged market for connectivity.¹ I continue to have that view this go around. So I am again voting to approve in part and concur in part.

¹ *Communications Marketplace Report et al.*, GN Docket No. 20-60, Report, 36 FCC Rcd 2945 (2020) (Statement of Commissioner Carr) (“I would go even further than the Report does in recognizing the converged market for connectivity that now exists. The Commission’s decades-old approach of viewing different technologies—including mobile, fixed, satellite, and broadcast offerings—as competing in distinct and separate markets no longer matches the way that Americans consume these services.”).
