APPENDIX G—FY 2025 SCHEDULE OF REGULATORY FEES
APPENDIX H—INITIAL REGULATORY FLEXIBILITY ANALYSIS

I. INTRODUCTION

1. Each fiscal year, the Commission must adopt a schedule of regulatory fees to be assessed and collected by the end of September in an amount that reasonably can be expected to total the Commission's annual salaries and expenses (S&E) appropriation. Pursuant to section 9 of the Communications Act of 1934, as amended (Communications Act or Act),¹ and the Consolidated Appropriations Act, 2026, the Commission must collect \$416,112,000, which is an amount equal to its fiscal year (FY) 2026 salaries and expenses (S&E) appropriation.²

2. In this Notice of Proposed Rulemaking (NPRM), we propose and seek comment on the regulatory fees and methodology to assess and collect \$416,112,000 in congressionally required regulatory fees for FY 2026, as set forth in Appendices A and B. Consistent with the Commission's long-standing regulatory fee methodology, staff has again undertaken a high-level, yet comprehensive, analysis of the work being performed by Commission employees to determine if identifiable full time equivalent (FTE) time is related to the oversight and regulation of fee payors such that it should be taken into consideration in applying our fee methodology. Based upon this analysis, we propose to reallocate a total of 59 FTEs as direct to the Commission's core licensing bureaus. As described below, our proposals to increase the number of direct FTEs allocated to a core bureau—which are substantially similar to the Commission's determinations in fiscal years 2023, 2024, and 2025—reflect our conclusion that we can determine with reasonable accuracy that certain FTE work in the Office of Economics and Analytics, the Office of General Counsel, and the Public Safety and Homeland Security Bureau is sufficiently linked to the oversight and regulation of regulatory fee payors for regulatory fee purposes for FY 2026.

3. Moreover, using the Commission's methodology of calculating television broadcaster regulatory fees based on population covered by the station's contour as the Commission has since 2020, we propose full-service broadcast television regulatory fees as set forth in Appendix F. Finally, we seek comment on whether to continue to use Numbering Resource Utilization Forecast (NRUF) assigned number data as the basis for assessing regulatory fees on Commercial Mobile Radio Service (CMRS) providers.

II. BACKGROUND

4. Section 9 of the Communications Act obligates the Commission to assess and collect regulatory fees each year, totaling an amount that can reasonably be expected to equal the amount of its annual S&E appropriation.³ Thus, the Commission has no discretion regarding the amount of fees to be collected in any given fiscal year. Regulatory fees cover all of the Commission's non-auctions direct,⁴

¹ 47 U.S.C. § 159 (requiring the Commission to assess and collect regulatory fees to recover the costs of carrying out its activities in the total amounts provided for in Appropriations Acts).

² *Title V — Independent Agencies, Federal Communications Commission, Salaries and Expenses Division of Division E — Financial Services and General Government Appropriations Act, 2026, of H.R. 7148 - Consolidated Appropriations Act, 2026*, Pub. L. No. 119-75 (Feb. 3, 2026) (FY 2026 Consolidated Appropriations Act).

³ FY 2026 started on October 1, 2025, and ends on September 30, 2026. The regulatory fee collection is guided by both the statutory authority in sections 6 and 9 of the Communications Act, 47 U.S.C. §§ 156, 159, and the explicit language of each fiscal year's S&E appropriation directing the amount to be collected as an offsetting collection. FY 2026 Consolidated Appropriations Act (appropriating “[f]or necessary expenses of the Federal Communications Commission, as authorized by law, ... \$416,112,000, to remain available until September 30, 2029: *Provided*, That \$416,112,000, of offsetting collections shall be assessed and collected pursuant to section 9 of title I of the Communications Act of 1934, shall be retained and used for necessary expenses and shall remain available until September 30, 2029: *Provided further*, That the sum herein appropriated shall be reduced as such offsetting collections are received during fiscal year 2026 so as to result in a final fiscal year 2026 appropriation estimated at \$0”).

⁴ Direct costs are those such as salaries and expenses. *See, e.g., Review of the Commission's Assessment and Collection of Regulatory Fees; Assessment and Collection of Regulatory Fees for Fiscal Year 2024*, MD Docket

indirect,⁵ and support⁶ costs, including costs to cover statutorily required tasks that do not directly equate with oversight and regulation of a particular fee payor, but instead benefit the Commission and the industry as a whole.⁷ Since regulatory fees must recover the total amount of the Commission's S&E appropriation, they also must cover the costs incurred in oversight and regulation of: (1) entities that are statutorily exempt from paying regulatory fees;⁸ (2) entities whose total assessed annual regulatory fees fall below the annual de minimis threshold;⁹ and (3) entities whose regulatory fees are waived.¹⁰

5. Congress has prescribed a method for the Commission to collect an amount equal to the full S&E appropriation in section 9 of the Communications Act, by keying our regulatory fee assessment to our FTE burden.¹¹ The methodology for assessing regulatory fees must "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."¹² Thus, the fee assigned to each regulatory fee category relates to the FTE burden associated with oversight and regulation of each regulatory fee category by the relevant core

Nos. 24-85 and 24-86, Second Report and Order, 39 FCC Rcd 10140, 10143-44, para. 5 (2024) (*FY 2024 Second Report and Order*).

⁵ Indirect costs are those such as overhead functions. *Id.*

⁶ Support costs include those such as rent, utilities, and equipment. *Id.*

⁷ *Assessment and Collection of Regulatory Fees for Fiscal Year 2021*, MD Docket No. 21-190, Report and Order and Notice of Proposed Rulemaking, 36 FCC Rcd 12900, 12991, para. 2 (2021) (*FY 2021 Report and Order*).

⁸ Entities that are exempt from paying regulatory fees include governmental and nonprofit entities, amateur radio operators, and noncommercial radio and television stations. 47 U.S.C. § 159(e)(1); 47 CFR § 1.1162.

⁹ 47 U.S.C. § 159(e)(2).

¹⁰ *Id.* § 159(d); 47 CFR § 1.1166.

¹¹ See 47 U.S.C. § 159(d). One FTE, a "Full Time Equivalent" or "Full Time Employee," is a unit of measure equal to the work performed annually by a full-time person (working a 40-hour workweek for a full year) assigned to the particular job, and subject to agency personnel staffing limitations established by the U.S. Office of Management and Budget. See generally Executive Office of the President, Office of Management and Budget, Circular No. A-11, Preparation, Submission, and Execution of the Budget (August 2025). See section 85.5(c) for a detailed explanation of how FTEs are calculated. Thus, in this proceeding, if we state 1.5 FTEs work on a particular subject matter, that might mean three individuals spend 50% of their time on that area. Moreover, in this NPRM, when we discuss FTEs and any change in allocation, it is solely for regulatory fee purposes and does not reflect proposals for the change of personnel in the various organizational work units.

¹² 47 U.S.C. § 159(d).

bureaus¹³ (i.e., the Wireless Telecommunications Bureau, the Media Bureau, most of the Wireline Competition Bureau,¹⁴ part of the Office of International Affairs, and most of the Space Bureau¹⁵).

6. The total amount of the offsetting collection generally changes each fiscal year. This means the regulatory fees due from payors also typically change as a mathematical consequence of the total amount that needs to be collected, the number of FTEs, and the projected unit estimates for each regulatory fee category.¹⁶ Since the Communication Act's explicit language requires that fees must

¹³ The phrase "core bureaus" was first used in 2012 by the Commission to explain that, under (prior) section 9(b)(1)(A) of the Communications Act, the Commission was instructed to calculate the regulatory fees by determining the FTEs performing the activities enumerated in section 9(a)(1) of the Communications Act within the Private Radio Bureau, Mass Media Bureau, Common Carrier Bureau, and other offices of the Commission. *Procedures for Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, MD Docket Nos. 12-201 and 08-65, Notice of Proposed Rulemaking, 27 FCC Rcd 8458, 8460, para. 5 & n.5 (2012) (*FY 2012 Regulatory Fee Reform NPRM*). While the functions of oversight and regulation remain the same, the names of the core bureaus have changed with time.

¹⁴ In 2017, the Commission concluded that allocating the work of FTEs in the Wireline Competition Bureau devoted to non-high-cost Universal Service Fund programs as indirect FTEs is consistent with how FTEs working for programs that benefit consumers and the American public are treated elsewhere in the Commission. *See Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 7057, 7061-64, paras. 10-15 (2017) (*FY 2017 Report and Order*); *see also Assessment and Collection of Regulatory Fees for Fiscal Year 2023, Review of the Commission's Assessment and Collection of Regulatory Fees*, MD Docket Nos. 23-159 and 23-301, Report and Order, 38 FCC Rcd 8071, 8090, para. 50 (2023) (*FY 2023 Report and Order*). Moreover, in the non-high-cost universal service fund programs, the E-Rate, Lifeline, and Rural Health Care programs tie funding eligibility based on the beneficiary, i.e., a school, a library, a low-income individual or family, or a rural healthcare provider and not to Commission regulatory fee payors. *See id.* at 8090, para. 50. Thus, the burden of FTE time devoted to non-high-cost Universal Service Fund programs is properly categorized as indirect. *See id.* at 8092, para. 55. In 2022, the Commission further determined to exclude broadcasters from the fee burden associated with these indirect FTEs because broadcasters do not directly participate in the universal service program. *Id.* at 8090-92, paras. 50-55 (explaining that beginning in the *FY 2022 Report and Order*, "Media Services" licensees were excluded from recovery of the funds associated with the indirect FTEs who work on non-high-cost Universal Service Fund issues). In its annual analysis of FTE time, after excluding broadcasters, staff deducts the burden of this indirect FTE work from the calculation of the direct FTEs allocated to the Wireline Competition Bureau and apportions these indirect FTEs among all other fee payors. *Id.* at 8091, para. 51.

¹⁵ In the FY 2024 regulatory fee proceeding, the Commission analyzed the reorganization of the International Bureau into the new Space Bureau and the Office of International Affairs (OIA) to determine whether any of their FTEs should be attributed directly to a particular category of regulatory fee payor. *FY 2024 Second Report and Order*, 39 FCC Rcd 10154-65, paras. 19-45. Historically, all but 28 of the FTEs of the International Bureau were considered indirect. *See, e.g., Assessment and Collection of Regulatory Fees for Fiscal Year 2013*, MD Docket Nos. 13-140, 12-201, and 08-65, Report and Order, 28 FCC Rcd 12351, 12355-56, para. 14 (2013) (*FY 2013 Report and Order*). In 2024, the Commission concluded that given the nature of their work, 48 of the 54 FTEs in the Space Bureau should be categorized as direct and six as indirect. *FY 2024 Second Report and Order*, 39 FCC Rcd at 10154, para. 20. The Commission further explained that, as was the case prior to reorganization, most of the work of OIA, including the work of the Global Strategies and Negotiation Division, does not benefit a specific fee payor, but rather the government as whole, and is therefore appropriately categorized as indirect. *Id.* at 10164, para. 43. However, the Commission continued to categorize as direct the FTE work of OIA concerning international bearer circuit issues, including the services provided over submarine cables, determining that there were eight FTEs within OIA whose work was direct on that basis. *Id.* at 10165, para. 45. In 2025, before reallocations, 49 FTEs in the Space Bureau were categorized as direct, as well as eight FTEs within OIA. *See Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2025*, MD Docket No. 25-190, Report and Order, 40 FCC Rcd 7557, 7570, para. 35 (2025) (*FY 2025 Report and Order*), pet. for recon. pending.

¹⁶ Section 9(c)(1)(B) of the Communications Act contemplates such changes to the fee schedule necessary to result in the collection of the amount required by subsection 159(b). 47 U.S.C. § 159(c)(1)(B). For example, if the number of units in a regulatory fee category increase, the amount due per unit may decrease, depending on other

(continued....)

reflect FTEs, FTE counts are the most administrable starting point for regulatory fee allocations,¹⁷ and regulatory fees are based on the direct FTEs in core bureaus.¹⁸ Thus, when considering changes, additions, or deletions to the regulatory fee schedule, we focus on the direct FTE cost burden related to each regulatory fee category within the core licensing bureaus.¹⁹

7. FTEs within a bureau are not assigned to specific fee categories “by rote or at random, but rather in a manner that reflects the time spent by FTEs on a regulatory fee category, which is in itself a reflection of ‘benefit’ to the fee category.”²⁰ We apportion regulatory fees across fee categories based on the number of direct FTEs in each core bureau to take into account factors that are reasonably related to the payors’ benefits.²¹ Any decrease to the fees paid by one category of regulatory fee payors necessitates an increase in fees paid by other categories of regulatory fee payors, which means regulatory fees are a zero-sum game because the Commission must collect the full amount of its appropriation each fiscal year.²²

8. The Commission allocates FTEs according to the nature of the work performed by its different organizational units. If the FTE work directly relates to the oversight and regulation of a regulatory fee category in one of the five core licensing bureaus then those FTEs are considered to be direct FTEs.²³ Work that cannot be allocated to one of those regulatory fee categories counts as indirect FTE time.²⁴

9. Indirect FTE time includes work associated with a wide range of issues regarding services that are not specifically correlated with one core bureau, let alone one specific category of

factors. This would also include proportionate increases in a given fee category to reflect an overall increase in the annual FY appropriation. It is rare, however, for the Commission to solely propose adjustments under section 9(c). Such changes under section 9(c) of the Communications Act fall under the section 9A(b)(1) congressional notification requirements. 47 U.S.C. §§ 159A(b)(1), 159(c).

¹⁷ *Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Report and Order and Further Notice of Proposed Rulemaking, 34 FCC Rcd 8189, 8193, para. 8 (2019) (*FY 2019 Report and Order*).

¹⁸ *Id.* at 8192-93, paras. 7-9. Our prior decisions to add to, delete from, or amend the regulatory fee schedule are instructive of the detailed analysis that generally accompanies a change to the FTE allocation as direct or indirect, the attribution of FTEs to a regulatory fee category, and the allocation of fees within a regulatory fee category based on the unit measure adopted.

¹⁹ *FY 2021 Report and Order*, 36 FCC Rcd at 12999, para. 17. Changes under section 9(d) of the Communications Act fall under the section 9A(b)(2) 90-day notification to Congress. 47 U.S.C. §§ 159A(b)(2), 159(d).

²⁰ *Review of the Commission’s Assessment and Collection of Regulatory Fees*, Report and Order and Notice of Inquiry, 37 FCC Rcd 10845, 10847, para. 3 & n. 18 (2022) (*FY 2022 Report and Order*) (citing *Assessment and Collection of Regulatory Fees for Fiscal Year 2007*, MD Docket No. 07-81, Report and Order and Further Notice of Proposed Rulemaking, 22 FCC Rcd 15712, 15719, para. 19 (2007) (“Section 9 is clear, however, that regulatory fee assessments are based on the burden imposed on the Commission, not benefits realized by regulatees.”)).

²¹ *FY 2019 Report and Order*, 34 FCC Rcd at 8193, para. 9.

²² *Id.* at 8195, para. 16.

²³ *Id.* at 8195, para. 14 (“We have long relied on direct FTE allocations because the Commission has found those allocations best reflect the ‘benefits provided to the payor of the fee by the Commission’s activities.’”) (internal citation omitted); *2012 Regulatory Fee Reform NPRM*, 27 FCC Rcd at 8461, para. 8 (“The Commission allocates FTEs according to the nature of the employees’ work. If the work performed by an employee can be assigned to a regulatory fee category in one of the four core licensing bureaus—Wireless Telecommunications, Media, Wireline Competition, and International—that employee’s time is counted as a direct FTE. If the work cannot be assigned to one of the bureau’s designated fee categories, the employee’s time is counted as an indirect FTE.”); *FY 2014 Report and Order*, 29 FCC Rcd at 10768, para. 2 (explaining the reliance on direct FTEs for purposes of determining regulatory fee calculations).

²⁴ See, e.g., *FY 2023 Report and Order*, 38 FCC Rcd at 8076, para. 7.

regulatory fee payors.²⁵ Many Commission attorneys, economists, engineers, analysts, and other staff perform work during a single fiscal year, which generally benefits the telecommunications industry and the public as opposed to matters that are specific to any regulatory fee category.²⁶ The Commission has categorized FTE work conducted in the Enforcement, Consumer and Governmental Affairs, and Public Safety and Homeland Security Bureaus along with some of the work in the Wireline Competition Bureau,²⁷ the Space Bureau, and the Office of International Affairs²⁸ as well as the work of those in the Office of the Chair and the Commissioners' Offices and in the Offices of the Managing Director, General Counsel, Inspector General, Communications Business Opportunities, Engineering and Technology, Legislative Affairs, Workplace Diversity, Media Relations, Economics and Analytics, and Administrative Law Judges as indirect for regulatory fee purposes.²⁹

10. Following this framework, the Commission assesses the allocation of FTEs by first determining the number of direct non-auctions FTEs in each of the Commission's core bureaus.³⁰ Early in each fiscal year, the Human Resources Management office identifies FTEs at the core bureau level. We then validate that data through consultation with the bureaus and offices to determine the number of direct FTEs allocated to each of the five core bureaus. Those numbers are then used to calculate the corresponding percentage of the total amount of regulatory fees to be collected for a given fiscal year from the fee payors of each core bureau.³¹

11. This means regulatory fees are initially apportioned across the regulatory fee categories based on the number of direct FTEs in each core bureau whose time is focused on a particular industry segment and then are adjusted "to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."³² Specifically, staff allocates appropriated amounts to be recovered proportionally based on the number of direct FTEs within each core bureau.³³ Those proportions are then subdivided and apportioned within each core bureau into fee

²⁵ *Assessment and Collection of Regulatory Fees for Fiscal Year 2015*, MD Docket No. 15-121, Report and Order and Further Notice of Proposed Rulemaking, 30 FCC Rcd 10268, 10275-76, paras. 16-17 (2015) (*FY 2015 Report and Order*).

²⁶ See *FY 2021 Report and Order*, 36 FCC Rcd at 13001, para. 22.

²⁷ See *supra* note 14.

²⁸ The Commission reallocated all the authorities and functions of the (former) International Bureau to the new Space Bureau and a new Office of International Affairs (OIA). The Commission previously reallocated some of the FTEs in the former International Bureau and the Wireline Competition Bureau from direct to indirect for regulatory fee purposes due to the nature of their work assignments. See, e.g., *Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 7057, 7061-64, paras. 10-15 (2017) (*FY 2017 Report and Order*); see also *Assessment and Collection of Regulatory Fees for Fiscal Year 2020*, Report and Order and Notice of Proposed Rulemaking, 35 FCC Rcd 4976, 4991, para. 33 (2020) (*FY 2020 NPRM*), *aff'd*, *Telesat Canada, et al. v. FCC*, 999 F.3d 707 (D.C. Cir. 2021) (*Telesat*).

²⁹ See, e.g., *FY 2021 Report and Order*, 36 FCC Rcd at 12994, para. 8; see also *FY 2025 Report and Order*, 40 FCC Rcd at 7560, para. 6.

³⁰ See *FY 2019 Report and Order*, 34 FCC Rcd at 8193, paras. 8-9; *FY 2021 Report and Order*, 36 FCC Rcd at 12991-92, para. 3. Other factors the Commission takes into consideration include the annual S&E appropriation and the projected unit estimates.

³¹ The percentage for each core bureau is the number of direct non-auction FTEs within the core bureau divided by the total number of direct non-auction FTEs in the Commission.

³² *FY 2019 Report and Order*, 34 FCC Rcd at 8195, para. 14.

³³ As a general matter, there is no additional calculation to attribute indirect costs. Instead, the proportional allocation of the whole S&E appropriation based on the number of direct FTEs effectively attributes all indirect costs among the core bureaus so that the Commission can recover its entire appropriation each year.

categories among the regulatees being served based on the time spent on each fee category.³⁴ Finally, within each regulatory fee category, the amount to be collected is divided by a unit count that allocates the regulatory fee payor's proportionate share based on an objective measure.

12. The FTE time devoted to developing and implementing the Commission's spectrum auctions is not included in the calculation of regulatory fees and is not offset by the collection of regulatory fees.³⁵ Thus, the Commission's methodology excludes all spectrum auction-related FTEs and their overhead from the regulatory fee calculations.³⁶

13. In order to collect regulatory fees in the amount required by its annual S&E appropriation, the Commission conducts a rulemaking proceeding each year to consider any necessary increases or decreases in the number of units subject to the payment of such fees and to reflect any adjustments needed to the prior year's fees schedule.³⁷ The Commission will propose amendments to the fee schedule "if it determines that changes are necessary for the fees to reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's

³⁴ Notably, the agency is not required to calculate its costs with "scientific precision." *Central & Southern Motor Freight Tariff Ass'n v. United States*, 777 F.2d 722, 736 (D.C. Cir. 1985). Reasonable approximations will suffice. *Id.*; *Mississippi Power & Light v. U.S. Nuclear Regulatory Comm'n*, 601 F.2d 223, 232 (5th Cir. 1979); *National Cable Television Ass'n v. FCC*, 554 F.2d 1094, 1105 (D.C. Cir. 1976). See also *FY 2024 Second Report and Order*, 39 FCC Rcd at 10159, para. 31. To the extent that changes in FTE direct or indirect allocations impact our determinations of regulatory fee calculations with reasonable certainty for FY 2026, we will explain our actions in the Report and Order as we have done in past with respect to any organizational or FTE reallocations. For example, the Commission reassigned staff to the Office of Economics and Analytics, effective December 11, 2018, resulting in the reassignment of 95 FTEs (of which 64 were not auctions-funded) as indirect FTEs. See *Establishment of the Office of Economics and Analytics*, Order, 33 FCC Rcd 1539 (2018). This reassignment resulted in a reduction in direct FTEs in the Wireline Competition Bureau, Wireless Telecommunications Bureau, and Media Bureau. That same year, the Commission reassigned Equal Employment Opportunity enforcement staff from the Media Bureau to the Enforcement Bureau, effective March 15, 2019, resulting in a reduction of seven direct FTEs in the Media Bureau as reflected in the regulatory fee proceeding that year. See *Transfer of EEO Audit and Enforcement Responsibilities to Enforcement Bureau*, Public Notice, 34 FCC Rcd 1370 (EB 2019); *FY 2019 Report and Order*, 34 FCC Rcd at 8194, para. 11. The organizational changes in the Space Bureau and the Office of International Affairs became effective in the second half of FY 2023 on April 13, 2023, with the increase in direct FTEs in the Space Bureau first reflected in the FY 2024 regulatory fees for space and earth stations. *FY 2024 Second Report and Order*, 39 FCC Rcd at 10142-43, 10151-52, paras. 2, 16 (implementing for regulatory fee purposes the reallocation of FTEs from the former International Bureau to the Space Bureau and the Office of International Affairs, effective for FY 2024).

³⁵ 47 U.S.C. § 309(j)(8)(B) (providing that "the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this subsection"). Each year, Congress provides a cap on such offsetting collection. FY 2026 Consolidated Appropriations Act ("That, notwithstanding 47 U.S.C. 309(j)(8)(B), proceeds from the use of a competitive bidding system that may be retained and made available for obligation shall not exceed \$132,681,000 for fiscal year 2026."). We are referring to spectrum auctions FTEs when we use the terms "auctions FTEs" and "non-auctions FTEs."

³⁶ *Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Notice of Proposed Rulemaking, 34 FCC Rcd 3272, 3276-77, para. 10 (*FY 2019 NPRM*). To the extent that FTEs within the core bureaus spend a portion of their time on auctions issues and a portion of their time on appropriated issues, their time is split and only the non-auctions portion of their time is reflected in the relevant core bureau's direct FTE count. See *FY 2021 Report and Order*, 36 FCC Rcd at 12999-13000, para. 20.

³⁷ 47 U.S.C. § 159(c). For example, if the number of units in a regulatory fee category increases, the amount due per unit may decrease. This would also include proportionate increases in a given fee category to reflect an overall increase in the annual FY appropriation. Such changes are rarely the subject of dispute and are usually addressed in the more ministerial changes to the fee schedule.

activities.”³⁸ Pursuant to the Act, the Commission must notify Congress immediately upon adoption of any adjustment.³⁹ The Act also requires the Commission to notify Congress at least 90 days prior to making effective any amendments to the regulatory fee schedule.⁴⁰

14. In implementing our statutory authority, we consider the adoption of a new regulatory fee category or a change in an existing regulatory fee category only when we develop a sufficient basis for making the change, ensuring that our assessment of regulatory fees is fair, administrable, and sustainable.⁴¹ The Commission will adopt new regulatory fee categories and new methodologies for calculating regulatory fees when there is a sufficient basis for doing so based on the record, and under the relevant statutory provisions and precedent.⁴²

³⁸ *Id.* § 159(d).

³⁹ *Id.* § 159A(b)(1).

⁴⁰ *Id.* § 159A(b)(2).

⁴¹ Since 2012, the Commission has had the overarching goals that its regulatory fees be “fair, administrable, and sustainable.” *Procedures for Assessment and Collection of Regulatory Fees*, Notice of Proposed Rulemaking, 27 FCC Rcd 8458, 8464-65, paras. 14-16 (2012) (first proposing the goals and providing explanations for the meaning of “fairness,” “administrability,” and “sustainability”); *see also 2020 Application Fee Report and Order*, 35 FCC Rcd at 15089-90, 15091-92, paras. 1, 6 & n.11. The concept of administrability includes the difficulty in collecting regulatory fees under a system that could have unpredictable dramatic shifts in assessed fees in certain categories from year to year. Application of our overarching program goals must comport with the language of the statute, and in adopting our fee schedule, we are mindful of other general limits of fee authority. *See National Cable Television Ass’n v. United States*, 415 U.S. 336, 340-41 (1974) (construing Independent Offices Appropriations Act (IOAA)); *see also National Cable Television Ass’n v. FCC*, 554 F.2d 1094, 1106 & n.42 (D.C. Cir. 1976). While IOAA no longer applies to the Commission, we remain cognizant of broader legal issues raised by user fee and/or regulatory fee precedent. *See House of Representatives Report No. 99-453* (1985) at page 433 (noting the significance of *National Cable* and explaining that IOAA no longer applies to the Commission with the passage of other specific fee authority, application fees, in COBRA-85).

⁴² For example, in 2015, after reviewing the issue over several years, the Commission added Direct Broadcast Satellite (DBS) as a subcategory of the cable television and Internet Protocol television (IPTV) fee category to the regulatory fee schedule, based on the oversight and regulation of this industry by Media Bureau FTEs. *FY 2015 Report and Order*, 30 FCC Rcd at 10276-77, paras. 19-20; *Assessment and Collection of Regulatory Fees for Fiscal Year 2015*, MD Docket No. 15-121, Notice of Proposed Rulemaking, 30 FCC Rcd 5354, 5358, para. 9 (2015) (*FY 2015 NPRM*); *FY 2013 NPRM*, 28 FCC Rcd at 7810-11, paras. 50-52. In the *FY 2021 Report and Order*, the Commission placed all DBS, cable television, and IPTV providers in the same fee category at the same per subscriber regulatory fee. *See FY 2021 Report and Order*, 36 FCC Rcd at 13004-05, para. 28. In 2020, the Commission included non-U.S. licensed space stations with U.S. market access grants in the existing “Space Stations” fee category. *FY 2020 NPRM*, 35 FCC Rcd at 4979-91, paras. 7-34. The Commission concluded that assessing the same regulatory fees on non-U.S. licensed space stations with U.S. market access as assessed on U.S. licensed space stations would better reflect the benefits received by these operators, i.e., the adjudicatory, enforcement, regulatory, and international coordination activities by the Commission’s FTEs in the International Bureau. *Id.* at 4980-81, paras. 10-11. On appeal, the D.C. Circuit upheld the Commission’s decision in *Telesat*, noting that “[i]t is undeniable that foreign satellites and their operators do benefit from the Commission’s regulation in much the same way as their U.S.-licensed counterparts” and the Commission “reviews petitions for market access by foreign-licensed satellites to ensure legal compliance with this carefully coordinated system” for all U.S. market participants. *Telesat*, 999 F.3d at 711. In particular, the D.C. Circuit noted that the Commission “devotes significant resources” to processing petitions from non-U.S. licensed space stations to access the U.S. market; that non-U.S. licensed space stations “benefit from the Commission’s oversight and regulation in the same manner” as U.S. licensed space stations; and that processing a petition from a non-U.S. licensed space station operator “requires evaluation of the same legal and technical information as required of U.S. licensed applicants.” *Id.* at 710-12.

III. NOTICE OF PROPOSED RULEMAKING

15. In this NPRM, we propose to adopt a schedule of regulatory fees to be assessed and collected for FY 2026 and seek comment on those proposals as set forth in Appendices A and B.⁴³ As discussed below, we propose to increase the number of FTEs that are allocated directly to the core licensing bureaus for FY 2026 based upon the determination that the burden of the FTE work is sufficiently linked to the oversight and regulation of certain regulatory fee payors. In particular, we propose to reallocate a total of 59 indirect FTEs as direct FTEs to the Commission's core licensing bureaus from certain bureaus and offices, while we propose to allocate no such FTE work as direct from others as the Commission has done in the past.⁴⁴ We also seek comment on our proposal to continue to calculate television broadcaster regulatory fees using the Commission's methodology of population-based full-service broadcast television regulatory fees and whether to use a different data source for our assessment of fees on CMRS providers.

A. Assessment of Regulatory Fees

1. Methodology for Assessing Regulatory Fees

16. For FY 2026, we propose to assess and collect \$416,112,000 in regulatory fees, which is equal to our annual salaries and expenses (S&E) FY 2026 appropriation.⁴⁵ Section 9 of the Communications Act requires us to set regulatory fees to "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."⁴⁶ Our first step in establishing our regulatory fee schedule is identifying changes from the prior fiscal year regulatory fee proceeding, e.g., changes in the (i) FY S&E appropriation, (ii) FTE levels, and (iii) relevant unit measures for each regulatory fee category. Our second step is to identify the number of direct non-auction FTEs in each core bureau for purposes of the regulatory fee calculation.⁴⁷ After we determine the number of direct FTEs for each core bureau, we calculate the percentage of regulatory fees that we will need to collect for the given fiscal year from each regulatory fee category within each core bureau. These proportional calculations allocate all Commission non-auction related costs across all regulatory fee categories.

2. FTE Reallocations

17. Using the Commission's long-standing methodology to assess regulatory fees, staff conducted a high-level analysis of the time utilized in the oversight and regulation of certain segments of the telecommunications industry to propose regulatory fees for FY 2026, which reflect the full-time equivalent number of employees within the Commission's bureaus and offices, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities. Our proposals to reallocate certain indirect FTEs as direct to one of the Commission's core bureaus reflect our conclusion that we can determine, with reasonable accuracy for this fiscal year, that certain FTE time from the Office of General Counsel, the Office of Economics and Analytics, and the Public Safety and Homeland Security Bureau is devoted to work that is sufficiently

⁴³ In this NPRM, we propose regulatory fee rates in Appendices A and B herein, based on our existing methodology.

⁴⁴ See *Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2025*, MD Docket No. 24-86, Notice of Proposed Rulemaking, 40 FCC Rcd 4467, 4479, paras. 26-27 (2025) (*FY 2025 NPRM*).

⁴⁵ See *supra* note 2.

⁴⁶ 47 U.S.C. § 159(d).

⁴⁷ The remaining non-auction FTEs and other Commission costs are considered indirect. See *supra* note 33.

linked to the oversight and regulation of regulatory fee payors such that the FTE burden of that work should be allocated as direct to a core bureau for regulatory fee purposes.⁴⁸

18. Any commenter seeking a change or modification to our proposed methodology for FY 2026 should include a thorough analysis showing a sufficient basis for making the change and provide alternative options for the Commission to meet its statutory obligation to collect the full amount of the appropriation by the end of the fiscal year. Commenters should also explain how their proposal is fair, administrable, and sustainable.

3. Adjustment of Reallocations of Certain Indirect FTEs as Direct FTEs

19. According to information provided by our Human Resources Management office, at the start of FY 2026, there were 317.5 direct non-auctions FTEs distributed among the core licensing bureaus. With respect to the FTE time in the non-core bureaus and offices, as we have done in prior years, staff has undertaken a high-level, yet comprehensive analysis of the work being performed by non-auctions FTEs in the Office of Economics and Analytics, Office of General Counsel, and the Public Safety and Homeland Security Bureau, as well as the Consumer and Governmental Affairs Bureau, the Enforcement Bureau, and the Office of Engineering and Technology (and other bureaus and offices) to determine if identifiable FTE time in those organizational units is related to the oversight and regulation of fee payors such that it should be taken into consideration in applying our fee methodology. In other words, staff has examined and validated the data to determine the proposals regarding whether any FTE time in the non-core bureaus and offices should be reallocated to be considered as direct FTE time to a core bureau.

20. The Commission has previously concluded that the majority of FTE work being performed in the non-core bureaus and offices should be categorized as indirect because it benefits the Commission and the entire telecommunications industry generally and does not specifically focus on regulatory fee payors.⁴⁹ We do not revisit this general determination on an annual basis because doing so is not administrable as it would require the Commission to expend considerable resources to attempt to calculate the constantly shifting work of its FTEs within these organizational units. We nonetheless acknowledge that our consideration of whether the work of our FTEs is direct or indirect can change over time based on the priority of the Commission's work assignments, fluctuations within industry segments, and needs of specific regulatory fee payors. After analyzing the data for FY 2026, we tentatively conclude that the FTE burden associated with the majority of the work in the Commission's non-core bureaus and offices remains indirect because it cannot be attributed to specific categories of fee payors and it broadly benefits the Commission, the entire communications industry, and the general public.

21. Nevertheless, as the Commission has found in the past three fiscal years, the data for FY 2026 do support a conclusion that some measurable time is being spent by FTEs in the Office of Economics and Analytics, the Office of General Counsel and the Public Safety and Homeland Security Bureau that is directly in furtherance of the oversight and regulation of regulatory fee payors in certain industry segments such that it should be reallocated to a core bureau.⁵⁰ We therefore propose to reallocate 61 FTEs from the Office of Economics and Analytics, the Office of General Counsel, and the Public

⁴⁸ See, e.g., *FY 2023 Report and Order*, 38 FCC Rcd at 8080-81, para. 21; *FY 2024 Second Report and Order*, 39 FCC Rcd at 10151-52, paras. 14-16. As the Commission has explained, it will continue to evaluate whether any FTEs should be reallocated for regulatory fee purposes each year when reviewing and validating the FTE data. The Commission, however, will exercise its discretion regarding where to focus its analytical efforts each year to best respond to changes in the Commission's substantive work and organization, and changes in the telecommunications industry itself. *FY 2023 Report and Order*, 38 FCC Rcd at 8080, para. 19; see also *Review of the Commission's Assessment and Collection of Regulatory Fees; Assessment and Collection of Regulatory Fees for Fiscal Year 2024*, Notice of Proposed Rulemaking, 39 FCC Rcd 7173, 7181-82, para. 15 (*FY 2024 NPRM*). Thus, the Commission ensures it conducts its annual review in a manner that is fair, administrable, and sustainable.

⁴⁹ *FY 2023 Report and Order*, 38 FCC Rcd at 8092-99, paras. 57-76; see also *FY 2025 Report and Order*, 40 FCC Rcd at 7567-68, para. 25.

⁵⁰ See, e.g., *FY 2023 Report and Order*, 38 FCC Rcd at 8081-87, paras. 24-46.

Safety and Homeland Security Bureau as direct FTEs to core bureaus because the nature of their work has been determined to be primarily related to the oversight and regulation of fee payors.⁵¹ Specifically, for FY 2026, we propose reallocating 31 FTEs from the Office of Economics and Analytics as direct to a core bureau for regulatory fee purposes as follows: three to the Space Bureau, one to the Office of International Affairs, eight to the Wireless Telecommunications Bureau, 17 to the Wireline Competition Bureau, and two to the Media Bureau.⁵² Similarly, we propose reallocating three FTEs from the Office of General Counsel as direct FTEs to a core bureaus follows: one to the Wireline Competition Bureau, one to the Space Bureau,⁵³ and one to the Media Bureau.⁵⁴ Likewise, we propose reallocating 27 FTEs in the Public Safety and Homeland Security Bureau as direct to a core bureau as follows: 13 to the Wireless Telecommunications Bureau, eight to the Wireline Competition Bureau, and six to the Media Bureau.⁵⁵ We seek comment on these proposed reallocations.

22. Additionally, consistent with the Commission's past practice, we propose reallocating two FTEs from the Media Bureau as indirect FTEs because the nature of their work is similar to work performed in the Enforcement Bureau, which we consider to be indirect.⁵⁶ These reallocations result in an overall proposed increase of 59 FTEs being reallocated as direct FTEs to core bureaus.

23. Our proposals to reallocate FTEs for FY 2026 rely on staff's validation of the data and the same analysis employed in the last three fiscal years evaluating whether measurable FTE time is primarily being spent on the regulation and oversight of regulatory fee payors such that it should be considered as direct to a core bureau.⁵⁷ Specifically, where the amount of work under consideration equaled .5 FTE or less, we rounded down to the nearest whole FTE and only proposed our reallocations in one full FTE increments.⁵⁸ In analyzing the work of indirect FTEs in the non-core bureaus, we applied conservative estimates.⁵⁹ The Commission previously concluded that less than a full-time FTE

⁵¹ See *FY 2023 Report and Order*, 38 FCC Rcd at 8081-83, paras. 24-30 (discussion of these OEA FTEs). The proposals in this proceeding do not alter the functions of and delegation of authority to OEA. 47 CFR §§ 0.21 (OEA functions); 0.271 (OEA delegation); *FY 2022 Report and Order*, 37 FCC Rcd at 10849, 10856, paras. 6 and 20 (noting the FTE allocation of OGC); see also *FY 2023 Report and Order*, 38 FCC Rcd at 8083-84, paras. 31-34 (discussion of these OGC FTEs). Similarly, the proposals in this proceeding do not alter the functions of and delegation of authority to OGC. 47 CFR §§ 0.41 (OGC functions); 0.251 (OGC delegation); *FY 2023 Report and Order*, 38 FCC Rcd at 8084-87, paras. 35-46 (discussion of these PSHSB FTEs). Nor do the proposals in this proceeding alter the functions of and delegation of authority to PSHSB. 47 CFR §§ 0.191 (PSHSB functions); 0.392 (PSHSB delegation).

⁵² *FY 2024 Second Report and Order*, 39 FCC Rcd at 10152-53, para. 17 & n.72.

⁵³ In FY 2024, there was no FTE time from OGC reallocated to the Space Bureau because the Commission found that such FTE time devoted to former International Bureau issues was focused on Office of International Affairs matters that are indirect, rather than issues pertaining to regulatory fee payors and, similar to this year and years past, the Commission does not reallocate as a direct FTE if the indirect FTE time at issue is less than a full FTE. *Id.*

⁵⁴ *Id.* at 10152-53, para. 17.

⁵⁵ We note that the reallocations the Commission makes in its annual rulemaking are not cumulative but rather reflect changes in the underlying number of FTEs in the non-core bureaus and/or changes in the amount of work performed by the non-core bureaus for this fiscal year.

⁵⁶ See, e.g., *FY 2023 Report and Order*, 38 FCC Rcd at 8096, para. 70.

⁵⁷ See, e.g., *FY 2024 Second Report and Order*, 39 FCC Rcd at 10151, para. 15.

⁵⁸ *Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2024*, MD Docket No. 24-86, Second Notice of Proposed Rulemaking, 39 FCC Rcd 7173, 7188, para. 29 n.91 (2024) (*FY 2024 NPRM*).

⁵⁹ *Review of the Commission's Assessment and Collection of Regulatory Fees, Assessment and Collection of Regulatory Fees for Fiscal Year 2023*, MD Docket Nos. 22-301 and 23-159, Report and Order and Notice of Proposed Rulemaking, 38 FCC Rcd 4580, 4591 n.58 (*FY 2023 NPRM*); *FY 2024 Second Report and Order*, 39 FCC Rcd at 10152-53, para. 17.

demonstrates that the work being done is appropriately considered to be indirect and should not be reassigned.⁶⁰

24. As represented below, FTE time associated with the proposed reallocations would be added to the direct FTE totals of the relevant core bureau. In other words, these reallocations would increase the number of direct FTEs in a core bureau and reduce the total number of indirect FTEs within the Commission. Because our underlying methodology for calculating regulatory fees remains unchanged, we tentatively conclude that our regulatory fee calculation continues to be consistent with section 9 of the Communications Act, which requires us to base our methodology on the number of FTEs in calculating regulatory fees.⁶¹ We seek comment on this conclusion.

25. The table below shows the percentage of regulatory fees allocated to each core bureau based on the proposed reallocation of a total of 59 FTEs as direct to a core bureau. Our proposed reallocations result in an 18.58% increase in our overall direct FTE count for the fiscal year. These reallocations would be proportionally distributed within the core bureau. We seek comment on these reallocations for FY 2026 in Appendices A and B, which are based on our existing methodology and incorporate these proposals.

⁶⁰ *FY 2023 NPRM*, 38 FCC Rcd at 4591 n.58; *FY 2024 Second Report and Order* 39 FCC Rcd at 10152-53, para. 17.

⁶¹ 47 U.S.C. § 159(d) (“[T]he Commission shall by rule amend the schedule of regulatory fees established under this section if the Commission determines that the schedule requires amendment so that such fees reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission’s activities.”).

**CORE BUREAU DIRECT FTEs AND PERCENTAGES
FOR FY 2025 AND FY 2026 WITH REALLOCATIONS OF INDIRECT FTEs**

Core Bureau/Office	FY 2025 FTE Reallocations	Total # of Direct FY 2025 FTEs <u>With</u> FTE Reallocations	FY 2025 % After Reallocation	Total # of Direct FY 2026 FTEs <u>Without</u> FTE Reallocations	FY 2026 FTE Reallocations	Total # of Direct FY 2026 FTEs <u>With</u> Proposed FTE Reallocations	FY 2026 % After Proposed Reallocations
Office of International Affairs (Submarine Cable and International Bearer Circuits)	0	8	1.80%	8	+1 from OEA +0 from OGC Total additional FTEs +1	9	2.40%
Space Bureau (Space and Earth Stations)	+1 from OEA +1 from OGC Total additional FTEs +2	51	11.50%	44	+3 from OEA +1 from OGC Total additional FTEs +4	48	12.80%
Wireless Telecommunications Bureau	+8 from OEA +1 from OGC +14 from PSHSB Total additional FTEs +23	120	27.06%	81	+8 from OEA +0 from OGC +13 from PSHSB Total additional FTEs +21	102	27.20%
Wireline Competition Bureau	+13 from OEA +1 from OGC +9 from PSHSB Total additional FTEs +23	132.5	29.88%	81.5	+17 from OEA +1 from OGC +8 from PSHSB Total additional FTEs +26	107.5	28.67%
Media Bureau	+7 from OEA +1 from OGC +7 from PSHSB -2 from MB Reallocated as Indirect Total additional FTEs +13	134	29.76%	103	+2 from OEA +1 from OGC +6 from PSHSB -2 from MB Reallocated as Indirect Total additional FTEs +7	110	28.93%
Total	61	445.50	100%	317.50	59	376.50	100%

26. As reflected in the table above, based on these proposed reallocations and after adjustments are made to the direct FTE counts to implement Commission precedent,⁶² we would have a total of 376.5 non-auctions direct FTEs for FY 2026. Accordingly, as shown in the table below, we would propose to collect approximately \$9.988 million (2.40%) in fees from the Office of International Affairs regulatory fee payors; \$53.267 million (12.80%) in fees from the Space Bureau regulatory fee payors; \$113.192 million (27.20%) in fees from Wireless Telecommunications Bureau regulatory fee payors; \$119.296 million (28.67%) in fees from Wireline Competition Bureau regulatory fee payors; and \$120.369 million (28.93%) in fees from Media Bureau regulatory fee payors.

⁶² See, e.g., *supra* note 14.

**CORE BUREAU FTE PERCENTAGES AND AMOUNTS
FOR FY 2025 AND FY 2026 WITH PROPOSED FTE REALLOCATION ADJUSTMENTS**

Core Bureau	FY 2025 FTE% With FTE Reallocations	FY 2025 Amount With FTE Reallocations (Millions)	FY 2026 Proposed FTE % With Adjusted FTE Reallocations	FY 2026 Proposed Amount With FTE Reallocations (Millions)
		FY 2025 Appropriation was \$390.192		FY 2026 Appropriation is \$416.112
Wireline Bureau	29.88%	\$116.580	28.67%	\$119.296
Media Bureau	29.76%	\$116.119	28.93%	\$120.369
Media Bureau; subcategory Broadcasters	13.14%	\$51.286	12.80%	\$53.243
Media Bureau; subcategory Cable	16.62%	\$64.833	16.13%	\$67.126
Wireless Bureau	27.06%	\$105.582	27.20%	\$113.192
Office of International Affairs	1.80%	\$7.039	2.40%	\$9.988
Space Bureau	11.50%	\$44.872	12.80%	\$53.267

27. Any proposals or comments requesting a change or modification to these proposed regulatory fees for FY 2026 should include a thorough analysis showing a sufficient basis for making the change and should provide alternative options for the Commission to meet its statutory obligation to collect the full amount of the appropriation by the end of the fiscal year. Commenters should also indicate how such proposed alternative options are fair, administrable, and sustainable.

28. While above we have proposed reallocating some FTEs from the Office of Economics and Analytics, the Office of General Counsel, and the Public Safety and Homeland Security Bureau as direct to a core bureau, to date, our analysis of the work of FTEs in the Office of Engineering and Technology, Enforcement Bureau, and Consumer and Governmental Affairs Bureau has not justified similar reallocations. In prior orders, the Commission has continually reached this conclusion, and we are aware of nothing specific in FY 2026 that would support a different approach. For example, in previously examining the work of FTEs in the Office of Engineering and Technology, the Commission has repeatedly explained that the office provides engineering and technical expertise to the agency as a whole and supports each of the agency's core bureaus.⁶³ Likewise, the Commission has long concluded that Enforcement Bureau oversight is focused on the integrity of Commission's rules and ensuring the implementation of the Communications Act, which is FTE work that benefits the agency as a whole and directly benefits the American public, and not one particular group of regulatory fee payors.⁶⁴ Similarly, in prior evaluations of the work of FTEs in the Consumer and Governmental Affairs Bureau, the Commission has observed that the bureau is primarily devoted to developing and implementing consumer policies as required by the Communications Act, including disability rights, consumer education, processing informal complaints, outreach to state, local, and Tribal governments, and oversight more

⁶³ *FY 2023 Report and Order*, 38 FCC Rcd at 8092-93, paras. 58-60; *see also FY 2025 Report and Order*, 40 FCC Rcd at 7567-68, para. 25.

⁶⁴ *FY 2023 Report and Order*, 38 FCC Rcd at 8093-96, paras. 61-69; *see also FY 2025 Report and Order*, 40 FCC Rcd at 7567-68, para. 25.

generally of the telecommunications industry (e.g., establishing and oversight of the Reassigned Numbers Database).⁶⁵ In sum, historically, the Commission has found it would not be equitable for any one regulatory fee group of payors to shoulder the FTE burden of such work.⁶⁶

29. In the *FY 2023 Report and Order*, the Commission explained that, as part of its annual FTE analysis, it will continue to evaluate whether any FTEs should be reallocated for regulatory fee purposes when reviewing and validating the FTE data, but it noted that in doing so, it will exercise its discretion regarding where to focus its analytical efforts each year in order to best respond to changes in the Commission's substantive work and organization, and changes in the telecommunications industry itself.⁶⁷ The Commission therefore indicated that where its analysis merits inclusion of proposed reallocations, it will seek comment on any such potential reallocation of FTEs in an annual proceeding.⁶⁸ In other words, consistent with our existing methodology, we will reevaluate the nature of work performed within the non-core bureaus and offices if there is a reasoned basis to determine that measurable FTE work is being done within an organizational unit that should be reallocated to be direct to an identifiable category of fee payors.⁶⁹

30. We invite commenters to offer any new or current reasons why the Commission should reexamine the nature of the work being performed by FTEs in its non-core bureaus and offices. For instance, have there been any significant developments in the communications industry, changes in law, and/or substantial shifts in Commission policy and workload over the past year that suggest that there would now be measurable FTE work being performed in the Office of Engineering and Technology, Enforcement Bureau, or Consumer and Governmental Affairs Bureau that directly benefits a specific category of fee payors? In particular, have there been changes in any industry segment or any increases in the specific work performed by staff of the Commission that necessitate a reevaluation of our general determination that the work being performed by FTEs within these organizational units remains indirect? Are there any significant rulemakings or adjudications involving the FTEs from the Office of Engineering and Technology, Enforcement Bureau, or Consumer and Governmental Affairs Bureau that might warrant further examination of whether there is measurable FTE work in these organizational units being devoted directly in furtherance of the oversight and regulation of specific fee payors? Have there been substantial changes such that the Commission's previously articulated policy reasons for treating these FTEs as indirect no longer hold? How can we ensure that the nature of any such identified work would remain consistent throughout the fiscal year, and that any recategorization of FTE work from indirect to direct would adhere to our statutory requirements and be consistent with our goal of a regulatory fee system that is fair, administrable and sustainable? In the absence of changes in fact or law, we request that commenters refrain from filing comments advancing repetitious arguments advocating for new categories of fee payors that have previously been declined by the Commission.⁷⁰

B. Broadcast Television Stations

31. For FY 2026, we also propose to continue to assess fees for full-power broadcast television stations based on the population covered by a full-service broadcast television station's contour

⁶⁵ *FY 2023 Report and Order*, 38 FCC Rcd at at 8096, para. 71; *see also FY 2025 Report and Order*, 40 FCC Rcd at 7567-68, para. 25.

⁶⁶ *FY 2023 Report and Order*, 38 FCC Rcd at 8092-99, paras. 57-76; *see also FY 2025 Report and Order*, 40 FCC Rcd at 7567-68, para. 25.

⁶⁷ *FY 2023 Report and Order*, 38 FCC Rcd at 8080, para. 19.

⁶⁸ *Id.*

⁶⁹ *See, e.g., id.* at 8081, para. 23; *see also FY 2025 Report and Order*, 40 FCC Rcd at 7566-67, paras. 22-23.

⁷⁰ *See, e.g., FY 2025 Report and Order*, 40 FCC Rcd at 7575-84, paras. 44-68.

as the Commission has since 2020.⁷¹ The population-based methodology conforms with the service authorized here—broadcasting television to the American people. We further propose to continue our use of 2020 U.S. Census data to assess fees for full-power broadcast television stations, as we traditionally have over the last few years.⁷² The population data for broadcasters' service areas are determined using the TVStudy software and the Licensing and Management System (LMS) database, based on a station's projected noise-limited service contour.⁷³ However, consistent with the Commission's prior decisions, we will continue to base assessments on limiting the population count of full-power television stations that rely on satellite television stations to reach terrain-limited areas in Puerto Rico.⁷⁴ We seek comment on our mechanism for how we will calculate the regulatory fee based on the previously decided population-based methodology.⁷⁵ We propose adopting a factor of \$.006957 per population served for the FY 2026 full-power broadcast television station fee.⁷⁶ The population data for each licensee and the population-based fee (population multiplied by \$.006957 for each full-power broadcast television station)⁷⁷ are listed in Appendix F. We seek comment on these proposed fees.

C. CMRS and Mobile Services Assessments

32. Pursuant to statute, the Commission's regulatory fee assessments are keyed to the FTE burden associated with the oversight and regulation of its regulatory fee payors. For each regulatory fee payor category, the Commission must have a mechanism to apportion the fee within a category. For some payors, the unit measure is per license; for other payors, it is per subscriber or it relates to population served.⁷⁸ Since FY 2004, the Commission has used a unit measure methodology of assessing

⁷¹ *FY 2020 Report and Order*, 36 FCC Rcd at 1738, para. 19. Previously, from approximately 1995 through 2018, regulatory fees for full-power television stations were based on the Nielsen Designated Market Area (DMA) groupings 1-10, 11-25, 26-50, 51-100, and remaining markets (DMAs 101-210).

⁷² *See id.* at 1738-39, paras. 20-21 (adjusting the fees for Puerto Rico broadcasters).

⁷³ 47 CFR § 73.622. TVStudy software is released by the Commission's Office of Engineering and Technology. TVStudy uses 2020 U.S. Census data and interfaces with data contained in the LMS to perform coverage and interference analyses of full service digital and Class A television stations. *See generally* <https://www.fcc.gov/oet/tvstudy#:~:text=Engineering%20%26%20Technology,-TVStudy%20FAQ&text=The%20FCC's%20Office%20of%20Engineering.and%20Class%20A%20television%20stations>.

⁷⁴ As previously implemented, the Commission based assessments on a full-power television station and its satellite facility on a maximum of 3.1 million population. Hence, the maximum fee amount that will be paid by a full-power TV station and its associated satellite facility together is 3.1 million times 0.006957 (the fee rate) = \$21,567. *See FY 2020 Report and Order*, 36 FCC Rcd at 1738-39, paras. 20-21; *FY 2024 Second Report and Order*, 39 FCC Rcd at 10155-56, para. 24.

⁷⁵ In the *FY 2018 Report and Order*, the Commission adopted a new methodology for assessing regulatory fees for full-service broadcast stations. The Commission determined that it would fully transition to assessing regulatory fees for full-service television broadcast stations based on the population covered by the station's contour by FY 2020 and, in the interim, for FY 2019, adopted a blended fee based partly on the historical DMA methodology and partly on the new population-based methodology. *See Assessment and Collection of Regulatory Fees for Fiscal Year 2018*, MD Docket No. 18-175, Report and Order and Order, 33 FCC Rcd 8497, 8501-02, para. 14 (2018) (*FY 2018 Report and Order*).

⁷⁶ The factor of \$.006957 was derived by taking the revenue amount required from the full-power broadcast television station fee category and dividing it by the total population count of all "feeable" call signs.

⁷⁷ For those VHF stations whose power had to be increased to obtain a clearer signal, the Commission will continue to use a population count based on that station's lower VHF power level rather than at the increased power level.

⁷⁸ *See* paragraphs 41-50 *infra* describing the unit measure for each category and note 74 *supra* for full power broadcast television stations.

regulatory fees for CMRS providers based on the count of “assigned numbers”⁷⁹ reported in providers’ biannual Numbering Resource Utilization Forecast (NRUF) filings, with such data serving as a proxy for a provider’s subscriber count.⁸⁰

33. Given the passage of time and new data collections adopted and implemented by the Commission that also provide the Commission with visibility into CMRS providers’ subscriber counts, we seek comment on whether using a different unit measure to apportion regulatory fees for CMRS providers would better reflect the FTE burden of oversight of such fee payors. Would another source of data result in a unit measure for CMRS providers that would better achieve our goal that all aspects of our regulatory fee methodology be fair, sustainable, and administrable? For instance, would using mobile subscription data that service providers are required to submit into the Broadband Data Collection (BDC) system⁸¹ to determine CMRS unit counts for regulatory fee purposes be administratively easier for both the Commission and fee payors? Would using another source of data like the BDC lead to a more accurate outcome? Keeping in mind our statutory obligation to amend the fee schedule with factors that are reasonably related to the benefit of the payor of the fee⁸² and our policy goal of ensuring that our regulatory fees are fair, administrable, and sustainable, what are the tradeoffs in using one data source over another? For the purposes of the Commission’s ability to determine most accurately a CMRS provider’s unit counts for the assessment of regulatory fees, are there discernable variances between the Commission’s data sources that make one fairer than another? We ask commenters to provide detailed comments regarding why one data source may provide a superior basis than the other for the purposes of assessing CMRS regulatory fees.

34. To the extent we adopt a change to the data used to assess regulatory fees for this category of fee payors, any such changes would not be implemented until FY 2027 to allow fee payors the opportunity to prepare for the change and also to comply with relevant congressional notification requirements.⁸³

⁷⁹ For purposes of the NRUF filing requirement, “[a]ssigned numbers” are defined as “numbers working in the Public Switched Telephone Network under an agreement such as a contract or tariff at the request of specific end users or customers for their use, or numbers not yet working but having a customer service order pending [for five days or fewer].” 47 CFR § 52.15(f)(1)(iii).

⁸⁰ See *Assessment and Collection of Regulatory Fees for Fiscal Year 2004*, MD Docket No. 04-73, Report and Order, 19 FCC Rcd 11662, 11675, para. 47 (2004). The NRUF filings are FCC Form 502, which is collected by the North American Numbering Plan Administrator (NANPA). See FCC, Forms, <https://www.fcc.gov/licensing-databases/forms>; NANPA, NRUF, Requirements to File, <https://www.nanpa.com/nruf/requirements-file> (last visited March 18, 2026). Providers need to file FCC Form 502 if they “are a carrier and have received numbers from the North American Numbering Plan Administrator (NANPA), a Pooling Administrator, or another telecommunications carrier. However, subscriber toll-free numbers are not subject to being reported. Filers include incumbent local exchange carriers (ILECs), competitive local exchange carriers (CLECs), 500 service providers, paging companies, wireless telephony carriers, shared tenant service providers, satellite service providers, and resellers of these services.” FCC, Common Carrier Filing Requirements—Information for Firms Providing Telecommunications Services, <https://www.fcc.gov/reports-research/guides/common-carrier-filing-requirements-information-firms-providing-telecommunications-services> (last visited Mar. 18, 2026) (discussing FCC Form 502).

⁸¹ Providers of mobile services, among others, must submit subscription data required under FCC Form 477 into the BDC system. See *Establishing the Digital Opportunity Data Collection; Modernizing the FCC Form 477 Data Program*, WC Docket Nos. 19-195 and 11-10, Order, 37 FCC Rcd 14957, para. 1 (2022) (explaining that the Commission “will continue to collect broadband and voice subscription data using the FCC Form 477, but filers will submit their data through the BDC system”).

⁸² 47 U.S.C. § 159(d).

⁸³ 47 U.S.C. § 159A(b)(1)-(2).

D. Improving the Regulatory Fee Process

35. As part of the Commission's statutory obligation to assess and collect regulatory fees each fiscal year in an amount equal to its annual S&E appropriation,⁸⁴ the Commission strives to consider ways in which it can improve the regulatory fee process. As explained herein, our meticulous approach to making changes to our process and methodology ensures that our actions in assessing regulatory fees are fair, administrable, and sustainable.⁸⁵ For FY 2026, we again invite comment "on ways to improve our regulatory fee process."⁸⁶ Commenters should be mindful of the Commission's prior conclusions with respect to past proposals and fully explain the legal bases for any proposals they make and how such proposals fit within the Commission's statutory authority, precedent, and existing regulatory fee methodology.

36. Specifically, for the last several years, the Commission has rejected proposals for new fee categories offered by commenters because they have failed to satisfy the fair, administrable, and sustainable standard.⁸⁷ After reviewing the FTE data for this fiscal year and the expected work of those FTEs, we tentatively conclude that there is no basis upon which to propose new fee categories. Commenters that disagree with this tentative conclusion should provide detailed evidence of materially changed circumstances, rather than reiterate arguments that the Commission has historically declined to adopt.

IV. PROCEDURAL MATTERS

37. Included below are procedural items as well as our current payment and collection methods. We include these payments and collection procedures to remind regulatory fee payers and the public about these aspects of the annual regulatory fee collection process.

⁸⁴ 47 U.S.C. § 159(a), (b); *supra* note 2.

⁸⁵ *Assessment and Collection of Regulatory Fees for Fiscal Year 2020, Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Report and Order and Notice of Proposed Rulemaking, 35 FCC Rcd 4976, 4979-80, para. 8 (2020). For instance, the Commission added a new fee category to the regulatory fee schedule in 2020 when the Commission added non-U.S. licensed space stations with U.S. market access grants to the regulatory fee schedule. *FY 2020 NPRM*, 35 FCC Rcd at 4979-91, paras. 7-34. Prior to that, in 2017, the Commission added non-common carrier terrestrial IBCs to the regulatory fee schedule, in order to include both common carrier and non-common carrier terrestrial IBCs in the schedule. *FY 2017 Report and Order*, 32 FCC Rcd at 7071-72, paras. 34-35. In 2015, the Commission added a new fee category for DBS as a subcategory of the cable television and IPTV fee category, based on the oversight and regulation of this industry by Media Bureau FTEs. *FY 2015 Report and Order*, 30 FCC Rcd at 10276-77, paras. 19-20. Subsequently, the Commission placed all DBS, cable television, and IPTV providers in the same fee category at the same per subscriber regulatory fee. *FY 2021 Report and Order*, 36 FCC Rcd at 13004-05, para. 28. In 2014, the Commission adopted a new regulatory fee category for toll-free numbers because FTEs, primarily in the Wireline Competition Bureau, are devoted to toll-free number oversight and regulation. *FY 2014 Report and Order*, 29 FCC Rcd at 10778, paras. 26-27. In 2013, the Commission broadened the cable television category to include IPTV providers. *FY 2013 Report and Order*, 28 FCC Rcd at 12362-63, paras. 32-33.

⁸⁶ *FY 2025 NPRM*, 40 FCC Rcd at 4485, para. 41; *see also, e.g., FY 2024 NPRM*, 39 FCC Rcd at 7199, para. 53; *FY 2023 NPRM*, 38 FCC Rcd at 4619, para. 95; *Assessment and Collection of Regulatory Fees for Fiscal Year 2021; Assessment and Collection of Regulatory Fees for FY 2022*, MD Docket Nos. 21-190 and 22-223, Report and Order and Notice of Proposed Rulemaking, 37 FCC Rcd 7003, 7025, para. 53 (2022); *FY 2021 Report and Order*, 36 FCC Rcd at 13026, para. 73.

⁸⁷ *See, e.g., FY 2025 Report and Order*, 40 FCC Rcd at 7575-84, paras. 44-68. In implementing our section 9 authority, we consider the adoption of a new regulatory fee category or a change in an existing regulatory fee category only when we develop a sufficient basis for making the change, and we work to ensure that all changes serve the goal of ensuring that our assessment of regulatory fees is fair, administrable, and sustainable. *See Assessment and Collection of Regulatory Fees for Fiscal Year 2013*, MD Docket Nos. 12-201, 13-58, and 08-65, Notice of Proposed Rulemaking and Further Notice of Proposed Rulemaking, 28 FCC Rcd 7790, 7798-7807, paras. 17-40 (2013); *FY 2012 Regulatory Fee Reform NPRM*, 27 FCC Rcd at 8464-65, paras. 14-16; *see also supra* note 41.

38. *Credit Card Transaction Levels.* In accordance with *Treasury Financial Manual*, Volume I, Part 5, Chapter 7000, Section 7065.20a—*Credit Card Collections*, the total daily credit card transactions processed from a single customer can be no more than \$24,999.99 (hereinafter the “Maximum Daily Limit”) and the total monthly transactions processed from a single customer (based on a rolling 30-day period) can be no more than \$100,000.00 (hereinafter the “Maximum Monthly Limit”).⁸⁸ Transactions greater than the Maximum Limits will be rejected. If a customer initiates multiple transactions on the same day with the same credit card, those transactions causing the total charge to exceed the Maximum Limits will also be rejected. This applies to single payments or bundled payments of more than one bill. Multiple transactions to a single agency in one day may be aggregated and treated as a single transaction subject to the \$24,999.99 limit. Customers who wish to pay an amount greater than \$24,999.99 should consider available electronic alternatives such as debit cards, Automated Clearing House (ACH) debits from a bank account, and wire transfers. Each of these payment options is available after filing regulatory fee information in the Commission’s Registration System (CORES). Further details will be provided regarding payment methods and procedures at the time of FY 2026 regulatory fee collection in Fact Sheets, <https://www.fcc.gov/regfees>.

39. *Payment Methods.* During the fee season for collecting regulatory fees, regulatees can pay their fees by credit card through Pay.gov, ACH, debit card, or by wire transfer. Additional payment instructions are posted on the Commission’s website at <https://www.fcc.gov/licensing-databases/fees>. The receiving bank for all wire payments is the U.S. Treasury, New York, NY (TREAS NYC). Any other form of payment (e.g., checks, cashier’s checks, or money orders) will be rejected. For payments by wire, an FCC Form 159-E should still be transmitted via fax so that the Commission can associate the wire payment with the correct regulatory fee information. The fax should be sent to the Commission at (202) 418-2843 at least one hour before initiating the wire transfer (but on the same business day) so as not to delay crediting their account. Regulatees should discuss arrangements (including bank closing schedules) with their bankers several days before they plan to make the wire transfer to allow sufficient time for the transfer to be initiated and completed before the deadline. Complete instructions for making wire payments are posted at <https://www.fcc.gov/licensing-databases/fees/wire-transfer>.

40. *Standard Fee Calculations and Payment Dates.* The Commission will accept fee payments made in advance of the window for the payment of regulatory fees. The responsibility for payment of fees by service category is as follows:

41. *Media Services:* Regulatory fees must be paid for initial construction permits that were granted on or before October 1, 2025 for AM/FM radio stations, full-power VHF/UHF broadcast television stations, and satellite television stations. Regulatory fees must be paid for all broadcast facility licenses granted on or before October 1, 2025.⁸⁹

42. *Wireline (Common Carrier) Services:* Regulatory fees must be paid for authorizations that were granted on or before October 1, 2025. In instances where an authorization is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the authorization as of the fee due date. Audio bridging service providers are included in this category.⁹⁰ For Responsible Organizations (RespOrgs) that manage Toll Free Numbers (TFN), regulatory fees should be paid on all working, assigned, and reserved toll free numbers as well as toll free numbers in any other status as

⁸⁸ See Bureau of the Fiscal Service, *Treasury Financial Manual*, <https://tfx.treasury.gov/tfm/volume1> (*Treasury Financial Manual*) (last visited Mar. 12, 2026). Customers who owe an amount on a bill, debt, or other obligation due to the federal government are prohibited from splitting the total amount due into multiple payments. Splitting an amount owed into several payment transactions violates the credit card network and Fiscal Service rules. An amount owed that exceeds the Maximum Daily Limit, \$24,999.99, may not be split into two or more payment transactions in the same day by using one or multiple cards.

⁸⁹ If a station had both an initial construction permit and a license granted on or before October 1, 2025, the station needs to pay only the regulatory fee for the broadcast facility license.

⁹⁰ Audio bridging services are toll teleconferencing services.

defined in section 52.103 of the Commission's rules.⁹¹ The unit count should be based on toll free numbers managed by RespOrgs on or about December 31, 2025.

43. *Wireless Services, Commercial Mobile Radio Service (CMRS) cellular, mobile, and messaging services (fees based on number of subscribers or telephone number count):* Regulatory fees must be paid for authorizations that were granted on or before October 1, 2025. The number of subscribers, units, or telephone numbers on December 31, 2025 will be used as the basis from which to calculate the fee payment. In instances where a permit or license is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the permit or license as of the fee due date.

44. *Wireless Services, Multi-year fees:* The first eight regulatory fee categories in our Schedule of Regulatory Fees (first seven in our Calculation of Fees Appendix) pay "small multi-year wireless regulatory fees."⁹² Entities pay these regulatory fees in advance for the entire amount covered by the ten-year terms of their initial licenses and pay regulatory fees again only when the license is renewed, or a new license is obtained. We include these fee categories in our rulemaking to publicize our estimates of the number of "small multi-year wireless" licenses that will be renewed or newly obtained in FY 2026.

45. *Multichannel Video Programming Distributor (MVPD) Services (cable television operators, Cable Television Relay Service (CARS) licensees, DBS, and IPTV):* Regulatory fees must be paid for the number of basic cable television subscribers as of December 31, 2025.⁹³ Regulatory fees also must be paid for CARS licenses that were granted on or before October 1, 2025. In instances where a permit or license is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the permit or license as of the fee due date. For providers of DBS service and IPTV-based MVPDs, regulatory fees should be paid based on a subscriber count on or about December 31, 2025. In instances where a permit or license is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the permit or license as of the fee due date.

46. *Space Services:* Regulatory fees must be paid for earth stations that were licensed (or authorized) on or before October 1, 2025. Regulatory fees must also be paid for geostationary orbit space stations (GSO) and non-geostationary orbit satellite systems (NGSO), and the two NGSO subcategories "Small Constellations" and "Large Constellations," that were authorized or granted U.S. market access on or before October 1, 2025. Licensees of small satellites and space stations principally used for Rendezvous and Proximity Operations (RPO) or On-Orbit Servicing (OOS), including Orbit Transfer Vehicles (OTV), that were authorized or granted U.S. market access on or before October 1, 2025 must also pay regulatory fees.⁹⁴ In instances where a permit or license is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the authorization as of the fee due date.

47. *International Services (Submarine Cable Systems, Terrestrial and Satellite Services):* Regulatory fees for submarine cable systems are to be paid on a per cable landing license basis based on

⁹¹ 47 CFR § 52.103.

⁹² These multiyear licenses are for PLMRS (exclusive), PLMRS (shared), Microwave, Marine (ship), Aviation (aircraft), Marine (coast), and Aviation (ground).

⁹³ Cable television system operators should compute their number of basic subscribers as follows: Number of single family dwellings + number of individual households in multiple dwelling unit (apartments, condominiums, mobile home parks, etc.) paying at the basic subscriber rate + bulk rate customers + courtesy and free service. Note: Bulk-Rate Customers = Total annual bulk-rate charge divided by basic annual subscription rate for individual households. Operators may base their count on "a typical day in the last full week" of December 2025, rather than on a count as of December 31, 2025.

⁹⁴ In the *Space Station Regulatory Fees Order*, the Commission adopted a new methodology for assessing regulatory fees for small satellites and spacecraft licensed under sections 25.122 and 25.123 of the Commission's rules and included space stations that are principally used for Rendezvous and Proximity Operations or On-Orbit Servicing, including Orbit Transfer Vehicles, in the existing fee category for small satellites on an interim basis. *FY 2024 Space Station Regulatory Fees Order*, 39 FCC Rcd at 7325-29, paras. 9-16. This rule was published in the Federal Register and became effective on September 13, 2024. See 89 FR 60572 (July 26, 2024).

lit circuit capacity as of December 31, 2025. Regulatory fees for terrestrial and satellite IBCs are to be paid based on active (used or leased) international bearer circuits as of December 31, 2025, in any terrestrial or satellite transmission facility for the provision of service to an end user or resale carrier. When calculating the number of such active circuits, entities must include circuits used by themselves or their affiliates. For these purposes, “active circuits” include backup and redundant circuits as of December 31, 2025. Whether circuits are used specifically for voice or data is not relevant for purposes of determining that they are active circuits.⁹⁵ In instances where a permit or license is transferred or assigned after October 1, 2025, responsibility for payment rests with the holder of the permit or license as of the fee due date.

48. *CMRS and Mobile Services Assessments:* The Commission will compile data from the Numbering Resource Utilization Forecast (NRUF) report that is based on “assigned” telephone number (subscriber) counts that have been adjusted for porting to net Type 0 ports (“in” and “out”).⁹⁶ We have included non-geographic numbers in the calculation of the number of subscribers for each CMRS provider in Appendix A and the CMRS regulatory fee factor proposed in Appendix B. CMRS provider regulatory fees will be calculated and should be paid based on the inclusion of non-geographic numbers. CMRS providers can adjust the total number of subscribers, if needed. This information of telephone numbers (subscriber count) will be posted on CORES along with the carrier’s Operating Company Numbers (OCNs).

49. A carrier wishing to revise its telephone number (subscriber) count can do so by accessing CORES and following the prompts to revise their telephone number counts. Any revisions to the telephone number counts should be accompanied by an explanation.⁹⁷ The Commission will then review the revised count and supporting explanation, if any, and either approve or disapprove the submission in CORES. If the submission is disapproved, the Commission will contact the provider to afford the provider an opportunity to discuss its revised subscriber count and/or provide supporting documentation. If the Commission receives no response from the provider, or the Commission does not reverse its initial disapproval of the provider’s revised count submission, the fee payment must be based on the number of subscribers listed initially in CORES. Once the timeframe for revision has passed, the telephone number counts are final and are the basis upon which CMRS regulatory fees are to be paid. Providers can view their final telephone counts online in CORES.

50. Because some carriers do not file the NRUF report, they may not see their telephone number counts in CORES. In these instances, the carriers should compute their fee payment using the standard methodology that is currently in place for CMRS Wireless services (i.e., compute their telephone number counts as of December 31, 2025), and submit their fee payment accordingly. Whether a carrier reviews its telephone number counts in CORES or not, the Commission reserves the right to audit the number of telephone numbers for which regulatory fees are paid. If the Commission determines that a carrier paid CMRS or mobile services regulatory fees based on an incorrect number of telephone numbers, the Commission will bill the carrier for the difference between what was paid and what should have been paid.⁹⁸

51. *Providing Accountability Through Transparency Act.* Consistent with the Providing

⁹⁵ We encourage terrestrial and satellite service providers to seek guidance from the Office of International Affairs Telecommunications and Analysis Division to verify their particular IBC reporting processes to ensure that their calculation methods comply with our rules.

⁹⁶ See *Assessment and Collection of Regulatory Fees for Fiscal Year 2005*, Report and Order and Order on Reconsideration, 20 FCC Rcd 12259, 12264, paras. 38-44 (2005) (*FY 2005 Report and Order*).

⁹⁷ In the supporting documentation, the provider will need to state a reason for the change, such as a purchase or sale of a subsidiary, the date of the transaction, and any other pertinent information that will help to justify the change.

⁹⁸ There would be a 25% penalty plus interest for an incorrect payment per 47 U.S.C. § 159A(c)(2). The penalty is automatic and immediate. Interest accrues according to 31 U.S.C. § 3717. The FCC’s implementing regulations are sections 1.1164(c) and 1.1940(b).

Accountability Through Transparency Act, Public Law 118-9, a summary of this document will be available on <https://www.fcc.gov/proposed-rulemakings>.

52. *Regulatory Flexibility Act.* The Regulatory Flexibility Act of 1980, as amended (RFA),⁹⁹ requires that an agency prepare a regulatory flexibility analysis for notice-and-comment rulemaking proceedings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.”¹⁰⁰ Accordingly, the Commission has prepared an Initial Regulatory Flexibility Analysis (IRFA) concerning potential rule and policy changes contained in this NPRM. The IRFA is set forth in Appendix H. The Commission invites the general public, in particular small businesses, to comment on the IRFA. Comments must be filed by the deadlines for comments on the NPRM indicated on the first page of this document and must have a separate and distinct heading designating them as responses to the IRFA.

53. *Paperwork Reduction Act.* This document does not contain any proposed new or substantively modified information collections subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. § 3506(c)(4).

54. *Comment Filing Procedures.* Pursuant to sections 1.415 and 1.419 of the Commission’s rules, 47 CFR §§ 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission’s Electronic Comment Filing System (ECFS).

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: <https://www.fcc.gov/ecfs/>.
- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing.
- Filings can be sent by hand or messenger delivery, by commercial courier, or by the U.S. Postal Service. **All filings must be addressed to the Secretary, Federal Communications Commission.**
- Hand-delivered or messenger-delivered paper filings for the Commission’s Secretary are accepted between 8:00 a.m. and 4:00 p.m. by the FCC’s mailing contractor at 9050 Junction Drive, Annapolis Junction, MD 20701. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.
- Commercial courier deliveries (any deliveries not by the U.S. Postal Service) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.
- Filings sent by U.S. Postal Service First-Class Mail, Priority Mail, and Priority Mail Express must be sent to 45 L Street NE, Washington, DC 20554.

55. *Materials in Accessible Formats.* To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at 202-418-0530 (voice).

56. *Availability of Documents.* Comments, reply comments, and *ex parte* submissions will be available via ECFS. Documents will be available electronically in ASCII, Microsoft Word, and/or Adobe Acrobat. These documents are available for public inspection during regular business hours in the FCC Reference Center, Federal Communications Commission, 45 L Street NE, Washington, D.C. 20554.

57. *Ex Parte Information.* The proceeding initiated by this Notice of Proposed Rulemaking,

⁹⁹ 5 U.S.C. §§ 601 *et seq.*, as amended by the Small Business Regulatory Enforcement and Fairness Act (SBREFA), Pub. L. No. 104-121, 110 Stat. 847 (1996).

¹⁰⁰ 5 U.S.C. § 605(b).

in which we seek comment on proposals as described above,¹⁰¹ shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules.¹⁰² Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda, or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with section 1.1206(b) of the Commission’s rules. In proceedings governed by section 1.49(f) of the Commission’s rules or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules.

V. ORDERING CLAUSES

58. Accordingly, IT IS ORDERED that, pursuant to sections 47 U.S.C. §§ 4(i), 4(j), 9, 9A, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 154(j), 159, 159A, and 303(r), this Notice of Proposed Rulemaking IS HEREBY ADOPTED.¹⁰³

59. IT IS FURTHER ORDERED that the Commission’s Office of the Secretary SHALL SEND a copy of this Notice of Proposed Rulemaking, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for the Small Business Administration (SBA) Office of Advocacy.

FEDERAL COMMUNICATIONS COMMISSION

Marlene H. Dortch
Secretary

¹⁰¹ See *supra* para. 1.

¹⁰² 47 CFR §§ 1.1200 *et seq.*

¹⁰³ Pursuant to Executive Order 14215, 90 Fed. Reg. 10447 (Feb. 20, 2025), this regulatory action has been determined to be not significant under Executive Order 12866, 58 Fed. Reg. 68708 (Dec. 28, 1993).

APPENDIX A

Calculation of FY 2026 Revenue Requirements and Pro-Rata Fees

Regulatory fees for the first seven categories, identified with an *, are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

Fee Category	FY 2026 Payment Units	Yrs	FY 2025 Revenue Estimate (\$)	FY 2026 Revenue Requirement (\$)	Computed FY 2026 Regulatory Fee (\$)	Rounded FY 2026 Regulatory Fee (\$)	Expected FY 2026 Revenue (\$)
*PLMRS (Exclusive Use)	1,400	10	320,000	350,000	25	25	350,000

Difference			1,542,258	812,440			2,210,461

Notes on Appendix A

¹ The fee amounts listed in the column entitled “Rounded FY 2026 Reg. Fee” are the result of dividing the revenue requirement by the payment units of each radio class category. The actual FY 2026 regulatory fees for AM/FM radio station are listed on a grid located at the end of Appendix B.

² The AM and FM Construction Permit revenues and the full-power (VHF/UHF) Construction Permit revenues were adjusted, respectively, to set the regulatory fee to an amount no higher than the lowest licensed fee for that class of service based on the threshold 10,001-25,000, the traditional basis for identifying the lowest licensed fee. Reductions in the full-power (VHF/UHF) Construction Permit revenues, and in the AM and FM Construction Permit revenues, were offset by increases in the revenue totals for full-power television stations by market size, and in the AM and FM radio stations by class size and population served, respectively.

³ The MDS/MMDS category was renamed Broadband Radio Service (BRS). *See Amendment of Parts 1, 21, 73, 74 and 101 of the Commission’s Rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 and 2500-2690 MHz Bands, Report & Order and Further Notice of Proposed Rulemaking, 19 FCC Rcd 14165, 14169, para. 6 (2004).*

⁴ The chart at the end of Appendix B lists the submarine cable bearer circuit regulatory fees (common and non-common carrier basis) that resulted from the adoption of the *Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Report and Order and Further Notice of Proposed Rulemaking, 24 FCC Rcd 6388 (2008) and *Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Second Report and Order, 24 FCC Rcd 4208 (2009). The Submarine Cable fee in Appendix A is a weighted average of the various fee payers in the chart at the end of Appendix B.

⁵ The actual full-power television regulatory fees to be paid by call sign are identified in Appendix F.

APPENDIX B

FY 2026 Schedule of Regulatory Fees

Regulatory fees for the first eight categories listed, identified with an *, are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

Fee Category	Annual Regulatory Fee (\$)
*PLMRS (per license) (Exclusive Use) (47 CFR part 90)	25
*Microwave (per license) (47 CFR part 101)	25
*Marine (Ship) (per station) (47 CFR part 80)	15
*Marine (Coast) (per license) (47 CFR part 80)	40
*Rural Radio (47 CFR part 22) (previously listed under the Land Mobile category)	10
*PLMRS (Shared Use) (per license) (47 CFR part 90)	10
*Aviation (Aircraft) (per station) (47 CFR part 87)	10
*Aviation (Ground) (per license) (47 CFR part 87)	20
CMRS Mobile/Cellular Services (per unit) (47 CFR parts 20, 22, 24, 27, 80 and 90) (Includes Non-Geographic telephone numbers)	0.17
CMRS Messaging Services (per unit) (47 CFR parts 20, 22, 24 and 90)	0.08
Broadband Radio Service (formerly MMDS/ MDS) (per license) (47 CFR part 27)	810
Local Multipoint Distribution Service (per call sign) (47 CFR, part 101)	810
AM Radio Construction Permits	600
FM Radio Construction Permits	1,050
AM and FM Broadcast Radio Station Fees	See Table Below
Digital TV (47 CFR part 73) VHF and UHF Commercial Fee Factor See Appendix F for fee amounts due, also available at https://www.fcc.gov/licensing-databases/fees/regulatory-fees	0.006957
Digital TV Construction Permits	5,300
Low Power TV, Class A TV, TV/FM Translators & FM Boosters (47 CFR part 74)	265
CARS (47 CFR part 78)	2,075
Cable Television Systems (per subscriber) (47 CFR part 76), Including IPTV and Direct Broadcast Satellite (DBS)	1.60

Fee Category	Annual Regulatory Fee (\$)
Interstate Telecommunication Service Providers (per revenue dollar)	0.00560
Toll Free (per toll free subscriber) (47 CFR section 52.101 (f) of the rules)	0.10
Earth Stations: Transmit/Receive & Transmit only (per authorization or registration)	3,010
Space Stations (per authorized station in geostationary orbit) (47 CFR part 25)	178,700
Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Small Constellation (fewer than 1000 authorized space stations)	409,320
Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Large Constellation (1000 or more authorized space stations)	2,274,000
Space Stations (per license/call sign in non-geostationary orbit) (47 CFR part 25) (Small Satellite)	14,635
International Bearer Circuits - Terrestrial/Satellites (per Gbps circuit)	14
Submarine Cable Landing Licenses Fee (per cable system)	See Table Below

FY 2026 Radio Station Regulatory Fees						
Population Served	AM Class A	AM Class B	AM Class C	AM Class D	FM Classes A, B1 & C3	FM Classes B, C, C0, C1 & C2
<=10,000	\$575	\$415	\$360	\$395	\$630	\$720
10,001 - 25,000	\$960	\$690	\$600	\$660	\$1,050	\$1,200
25,001 – 75,000	\$1,440	\$1,035	\$900	\$990	\$1,575	\$1,800
75,001 – 150,000	\$2,160	\$1,555	\$1,350	\$1,485	\$2,365	\$2,700
150,001 – 500,000	\$3,245	\$2,330	\$2,030	\$2,230	\$3,550	\$4,055
500,001 – 1,200,000	\$4,860	\$3,490	\$3,035	\$3,340	\$5,315	\$6,070
1,200,001 – 3,000,000	\$7,295	\$5,245	\$4,560	\$5,015	\$7,980	\$9,120
3,000,001 – 6,000,000	\$10,935	\$7,860	\$6,835	\$7,515	\$11,960	\$13,670
>6,000,000	\$16,405	\$11,790	\$10,255	\$11,280	\$17,945	\$20,510

FY 2026 International Bearer Circuits - Submarine Cable Systems		
Submarine Cable Systems (capacity as of December 31, 2025)	Fee Ratio	FY 2026 Regulatory Fees
Less than 50 Gbps	0.0625 Units	\$7,505
50 Gbps or greater, but less than 250 Gbps	0.125 Units	\$15,015
250 Gbps or greater, but less than 1,500 Gbps	0.25 Units	\$30,025
1,500 Gbps or greater, but less than 3,500 Gbps	0.5 Units	\$60,050
3,500 Gbps or greater, but less than 6,500 Gbps	1.0 Unit	\$120,105
6,500 Gbps or greater	2.0 Units	\$240,205

APPENDIX C

Sources of Payment Unit Estimates for FY 2026

In order to calculate individual service fees for FY 2026, we adjusted FY 2025 payment units for each service to more accurately reflect expected FY 2026 payment liabilities. We obtained our updated estimates through a variety of means and sources. For example, we used Commission licensee databases, actual prior year payment records, and industry and trade association projections, where available. The databases we consulted include our Universal Licensing System (ULS), International Communications Filing System (ICFS), Licensing and Management System (LMS), and Cable Operations and Licensing System (COALS), as well as reports generated within the Commission such as the Wireless Telecommunications Bureau's *Numbering Resource Utilization Forecast*. Regulatory fee payment units are not all the same for all fee categories. For most fee categories, the term "units" reflects licenses or permits that have been issued, but for other fee categories, the term "units" reflects quantities such as subscribers, population counts, circuit counts, telephone numbers, and revenues. As more current data are received after the *NPRM* is released, the Commission sometimes adjusts the *NPRM* fee rates to reflect the new information in the *Report and Order*. This is intended to make sure that the fee rates in the *Report and Order* reflect more recent and accurate information. We realize that by adjusting the unit counts as more accurate information is received may adjust the fee rates for certain regulatory fee categories. Certain entities that collect the fees from customers in advance in order to pay the Commission, such as Cable and DBS companies, ITSP providers, Cell Phone and Toll-Free providers, may need to adjust their billings to customers as the Commission adjusts its fee rates. As a result, the Commission understands that these adjustments are necessary so that these regulatees can recover their fee obligations from their customers.

We sought verification for these estimates from multiple sources and, in all cases, we compared FY 2026 estimates with actual FY 2025 payment units to ensure that our revised estimates were reasonable. Where appropriate, we adjusted and/or rounded our final estimates to take into consideration the fact that certain variables that impact on the number of payment units cannot yet be estimated with sufficient accuracy. These include an unknown number of waivers and/or exemptions that may occur in FY 2026 and the fact that, in many services, the number of actual licensees or station operators fluctuates over time due to economic, technical, or other reasons. When we note, for example, that our estimated FY 2026 payment units are based on FY 2025 actual payment units, it does not necessarily mean that our FY 2026 projection is exactly the same number as in FY 2025. We have either rounded the FY 2026 number or adjusted it slightly to account for these variables.

Fee Category	Sources of Payment Unit Estimates
Land Mobile (All), Microwave, Marine (Ship & Coast), Aviation (Aircraft & Ground), Domestic Public Fixed	Based on Wireless Telecommunications Bureau (WTB) information as well as prior year payment information. Estimates have been adjusted to take into consideration the licensing of portions of these services.
CMRS Cellular/Mobile Services	Based on WTB projection reports, and FY 2025 payment data.
CMRS Messaging Services	Based on WTB reports, and FY 2025 payment data.
AM/FM Radio Stations	Based on downloaded LMS data, adjusted for exemptions, and actual FY 2025 payment units.

Fee Category	Sources of Payment Unit Estimates
Digital TV Stations (Combined VHF/UHF units)	Based on LMS data, fee rate adjusted for exemptions, and population figures are calculated based on individual station parameters.
AM/FM/TV Construction Permits	Based on LMS data, adjusted for exemptions, and actual FY 2025 payment units.
LPTV, Translators and Boosters, Class A Television	Based on LMS data, adjusted for exemptions, and actual FY 2025 payment units.
BRS (formerly MDS/MMDS) LMDS	Based on WTB reports and actual FY 2025 payment units. Based on WTB reports and actual FY 2025 payment units.
Cable Television Relay Service (CARS) Stations	Based on cable trend data, data from the Media Bureau's COALS database, and actual FY 2025 payment units.
Cable Television System Subscribers, Including IPTV Subscribers	Based on publicly available data sources for estimated subscriber counts, trend information from past payment data, and actual FY 2025 payment units.
Interstate Telecommunication Service Providers	Based on FCC Form 499-A worksheets due in April 2026, and any data assistance provided by the Wireline Competition Bureau.
Earth Stations	Based on Space Bureau licensing data and actual FY 2025 payment units.
Space Stations (GSOs & NGSOs)	Based on Space Bureau data reports and actual FY 2025 payment units.
International Bearer Circuits	Based on assistance provided by the Office of International Affairs, any data submissions by licensees, adjusted as necessary, and actual FY 2025 payment units.
Submarine Cable Licenses	Based on Office of International Affairs license information, and actual FY 2025 payment units.

APPENDIX D**Factors, Measurements, and Calculations that Determine Station Signal Contours and Associated Population Coverages****AM Stations**

For stations with nondirectional daytime antennas, the theoretical radiation was used at all azimuths. For stations with directional daytime antennas, specific information on each day tower, including field ratio, phase, spacing, and orientation was retrieved, as well as the theoretical pattern root-mean-square of the radiation in all directions in the horizontal plane (RMS) figure (milliVolt per meter (mV/m) @ 1 km) for the antenna system. The standard, or augmented standard if pertinent, horizontal plane radiation pattern was calculated using techniques and methods specified in sections 73.150 and 73.152 of the Commission's rules. Radiation values were calculated for each of 360 radials around the transmitter site. Next, estimated soil conductivity data was retrieved from a database representing the information in FCC Figure R3. Using the calculated horizontal radiation values, and the retrieved soil conductivity data, the distance to the principal community (5 mV/m) contour was predicted for each of the 360 radials. The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2020 block centroids were contained in the polygon. (A block centroid is the center point of a small area containing population as computed by the U.S. Census Bureau.) The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

FM Stations

The greater of the horizontal or vertical effective radiated power (ERP) (kW) and respective height above average terrain (HAAT) (m) combination was used. Where the antenna height above mean sea level (HAMSL) was available, it was used in lieu of the average HAAT figure to calculate specific HAAT figures for each of 360 radials under study. Any available directional pattern information was applied as well, to produce a radial-specific ERP figure. The HAAT and ERP figures were used in conjunction with the Field Strength (50-50) propagation curves specified in 47 CFR § 73.313 of the Commission's rules to predict the distance to the principal community (70 dBu (decibel above 1 microVolt per meter) or 3.17 mV/m) contour for each of the 360 radials. The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2020 block centroids were contained in the polygon. The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

APPENDIX E

APPENDIX G

FY 2025 Schedule of Regulatory Fees

Regulatory fees for the first eight categories listed, identified with an *, are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

Fee Category	Annual Regulatory Fee (\$)
*PLMRS (per license) (Exclusive Use) (47 CFR part 90)	25
*Microwave (per license) (47 CFR part 101)	25
*Marine (Ship) (per station) (47 CFR part 80)	15
*Marine (Coast) (per license) (47 CFR part 80)	40
*Rural Radio (47 CFR part 22) (previously listed under the Land Mobile category)	10
*PLMRS (Shared Use) (per license) (47 CFR part 90)	10
*Aviation (Aircraft) (per station) (47 CFR part 87)	10
*Aviation (Ground) (per license) (47 CFR part 87)	20
CMRS Mobile/Cellular Services (per unit) (47 CFR parts 20, 22, 24, 27, 80 and 90) (Includes Non-Geographic telephone numbers)	0.16
CMRS Messaging Services (per unit) (47 CFR parts 20, 22, 24 and 90)	0.08
Broadband Radio Service (formerly MMDS/ MDS) (per license) (47 CFR part 27)	760
Local Multipoint Distribution Service (per call sign) (47 CFR, part 101)	760
AM Radio Construction Permits	570
FM Radio Construction Permits	1,000
AM and FM Broadcast Radio Station Fees	See Table Below
Full Power TV (47 CFR part 73) VHF and UHF Commercial Fee Factor	.006674 See Appendix F of FY 2025 Report and Order for fee amounts due, also available at https://www.fcc.gov/licensing-databases/fees/regulatory-fees

Fee Category	Annual Regulatory Fee (\$)
Full Power TV Construction Permits	5,200
Low Power TV, Class A TV, TV/FM Translators & FM Boosters (47 CFR part 74)	275
CARS (47 CFR part 78)	1,945
Cable Television Systems (per subscriber) (47 CFR part 76), Including IPTV and Direct Broadcast Satellite (DBS)	1.47
Interstate Telecommunication Service Providers (per revenue dollar)	.005125
Toll Free (per toll free subscriber) (47 CFR section 52.101 (f) of the rules)	0.10
Earth Stations: Transmit/Receive & Transmit only (per authorization or registration)	2,060
Space Stations (per authorized station in geostationary orbit) (47 CFR part 25)	141,790
Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Small Constellation (fewer than 1000 authorized space stations)	375,140
Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Large Constellation (1000 or more authorized space stations)	1,917,390
Space Stations (per license/call sign in non-geostationary orbit) (47 CFR part 25) (Small Satellite)	12,330
International Bearer Circuits - Terrestrial/Satellites (per Gbps circuit)	14
Submarine Cable Landing Licenses Fee (per cable system)	See Table Below

FY 2025 Radio Station Regulatory Fees						
Population Served	AM Class A	AM Class B	AM Class C	AM Class D	FM Classes A, B1 & C3	FM Classes B, C, C0, C1 & C2
<=10,000	\$545	\$395	\$340	\$375	\$600	\$685
10,001 - 25,000	\$910	\$655	\$570	\$625	\$1,000	\$1,140
25,001 – 75,000	\$1,365	\$985	\$855	\$940	\$1,500	\$1,710
75,001 – 150,000	\$2,050	\$1,475	\$1,285	\$1,405	\$2,250	\$2,565
150,001 – 500,000	\$3,075	\$2,215	\$1,925	\$2,115	\$3,380	\$3,855
500,001 – 1,200,000	\$4,605	\$3,315	\$2,885	\$3,160	\$5,060	\$5,770
1,200,001 – 3,000,000	\$6,915	\$4,980	\$4,330	\$4,750	\$7,600	\$8,665

>6,000,000	\$15,550	\$11,195	\$9,740	\$10,680	\$17,090	\$19,485

FY 2025 International Bearer Circuits - Submarine Cable Systems		
Submarine Cable Systems (capacity as of December 31, 2024)	Fee Ratio	FY 2025 Regulatory Fees
Less than 50 Gbps	0.0625 Units	\$5,510
50 Gbps or greater, but less than 250 Gbps	0.125 Units	\$11,015
250 Gbps or greater, but less than 1,500 Gbps	0.25 Units	\$22,030
1,500 Gbps or greater, but less than 3,500 Gbps	0.5 Units	\$44,065
3,500 Gbps or greater, but less than 6,500 Gbps	1.0 Unit	\$88,130
6,500 Gbps or greater	2.0 Units	\$176,260

APPENDIX H

Initial Regulatory Flexibility Analysis

1. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),¹ the Federal Communications Commission (Commission) has prepared this Initial Regulatory Flexibility Analysis (IRFA) of the policies and rules proposed in the *Notice of Proposed Rulemaking (NPRM)* assessing the possible significant economic impact on a substantial number of small entities. The Commission requests written public comments on this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments specified on the first page of the *NPRM*. The Commission will send a copy of the *NPRM*, including this IRFA, to the Chief Counsel for the Small Business Administration (SBA) Office of Advocacy.² In addition, the *NPRM* and IRFA (or summaries thereof) will be published in the *Federal Register*.³

A. Need for, and Objectives of, the Proposed Rules

2. Each fiscal year, the Commission is required to collect regulatory fees in an amount equal to our annual salaries and expenses (S&E) appropriation by the end of September. Pursuant to section 9 of the Communications Act of 1934, as amended (Communications Act or Act),⁴ and the fiscal year (FY) 2026 Further Consolidation Appropriations Act, the Commission must collect \$416,112,000, which is an amount equal to its fiscal year (FY) 2026 salaries and expenses (S&E) appropriation.⁵ The Commission's methodology for assessing regulatory fees must "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."⁶ The total amount we must collect in an offsetting collection generally changes each fiscal year, and payors' regulatory fees will also typically change each fiscal year as a mathematical consequence of the changes in the total amount to be collected, the number of full-time equivalents (FTEs), and projected unit estimates for each regulatory fee category. The *NPRM* seeks comment on the proposed regulatory fees and methodology for FY 2026, as set forth in Appendices A and B. The *NPRM* also seeks comment on the calculation of television broadcaster regulatory fees as set forth in Appendix F, whether we should reexamine the "indirect" classification of FTEs in its non-core bureaus and offices, and whether to use a different data source for our assessment of fees on CMRS providers. Finally, we seek comment on whether there are ways to improve our regulatory fee process in order to meet our statutory obligations to assess and collect regulatory fees from payors, some of which are small entities.

¹ 5 U.S.C. §§ 601 *et seq.*, as amended by the Small Business Regulatory Enforcement and Fairness Act (SBREFA), Pub. L. No. 104-121, 110 Stat. 847 (1996).

² 5 U.S.C. § 603(a).

³ *Id.*

⁴ 47 U.S.C. § 159 (requiring the Commission to assess and collect regulatory fees to recover the costs of carrying out its activities in the total amounts provided for in Appropriations Acts).

⁵ The regulatory fee collection is guided by both the statutory authority in sections 6 and 9 of the Communications Act, 47 U.S.C. §§ 156, 159, and the explicit language of each fiscal year's S&E appropriation directing the amount to be collected as an offsetting collection. *See* FY 2026 Consolidated Appropriations Act (appropriating "[f]or necessary expenses of the Federal Communications Commission, as authorized by law, ... \$416,112,000, to remain available until September 30, 2029: *Provided*, That \$416,112,000, of offsetting collections shall be assessed and collected pursuant to section 9 of title I of the Communications Act of 1934, shall be retained and used for necessary expenses and shall remain available until September 30, 2029: *Provided further*, That the sum herein appropriated shall be reduced as such offsetting collections are received during fiscal year 2026 so as to result in a final fiscal year 2026 appropriation estimated at \$0").

⁶ *Id.* § 159(d).

B. Legal Basis

3. The proposed action is authorized pursuant to sections 4(i), 4(j), 9, 9A, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 154(j), 159, 159A, and 303(r).

C. Description and Estimate of the Number of Small Entities to Which the Proposed Rules Will Apply

4. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted.⁷ The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.”⁸ In addition, the term “small business” has the same meaning as the term “small business concern” under the Small Business Act.⁹ A “small business concern” is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.¹⁰ The SBA establishes small business size standards that agencies are required to use when promulgating regulations relating to small businesses; agencies may establish alternative size standards for use in such programs, but must consult and obtain approval from SBA before doing so.¹¹

5. Our actions, over time, may affect small entities that are not easily categorized at present. We therefore describe, at the outset, three broad groups of small entities that could be directly affected herein.¹² First, while there are industry specific size standards for small businesses that are used in the regulatory flexibility analysis, according to data from the Small Business Administration’s (SBA) Office of Advocacy, in general a small business is an independent business having fewer than 500 employees.¹³ These types of small businesses represent 99.9% of all businesses in the United States, which translates to 34.75 million businesses.¹⁴ Next, “small organization” are not-for-profit enterprises that are independently owned and operated and not dominant in their field.¹⁵ While we do not have data regarding the number of non-profits that meet that criteria, over 99 percent of nonprofits have fewer than 500 employees.¹⁶ Finally, “small governmental jurisdiction” are defined as cities, counties, towns, townships, villages, school districts, or special districts with a populations of less than fifty thousand.¹⁷ Based on the 2022 U.S. Census of Governments data, we estimate that at least 48,724 out of 90,835 local

⁷ 5 U.S.C. § 603(b)(3).

⁸ *Id.* § 601(6).

⁹ *Id.* § 601(3) (incorporating by reference the definition of “small-business concern” in the Small Business Act, 15 U.S.C. § 632). Pursuant to 5 U.S.C. § 601(3), the statutory definition of a small business applies “unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register.”

¹⁰ 15 U.S.C. § 632.

¹⁵ 5 U.S.C. § 601(4).

¹⁶ See SBA, Office of Advocacy, *Small Business Facts, Spotlight on Nonprofits* (July 2019), <https://advocacy.sba.gov/2019/07/25/small-business-facts-spotlight-on-nonprofits/>.

¹⁷ 5 U.S.C. § 601(5).

government jurisdictions have a population of less than 50,000.¹⁸

6. The rules proposed in the *NPRM* will apply to small entities in the industries identified in the chart below by their six-digit North American Industry Classification System (NAICS)¹⁹ codes and corresponding SBA size standard.²⁰ Based on currently available U.S. Census data regarding the estimated number of small firms in each identified industry, we conclude that the proposed rules will impact a substantial number of small entities. Where available, we also provide additional information regarding the number of potentially affected entities in the industries identified below.

Table 1. 2022 U.S. Census Bureau Data by NAICS Code

Regulated Industry (Footnotes specify potentially affected entities within a regulated industry where applicable)	NAICS Code	SBA Size Standard	Total Firms²¹	Total Small Firms²²	% Small Firms
Radio Broadcasting Stations	516110	\$47 million	2,616	2,136	81.65%
Television Broadcasting Stations	516120	\$47 million	413	316	76.51%
Wired Telecommunications Carriers ²³	517111	1,500 employees	3,403	3,027	88.95%
Wireless Telecommunications Carriers (except Satellite)	517112	1,500 employees	1,184	1,081	91.30%
Telecommunications Resellers ²⁴	517121	1,500 employees	955	847	88.69%

²⁵ Federal-State Joint Board on Universal Service, Universal Service Monitoring Report at 26, Table 1.12 (2024), <https://docs.fcc.gov/public/attachments/DOC-408848A1.pdf>.

²⁶ Affected Entities in this industry include all reporting local competitive service providers.

²⁷ Affected Entities in this industry include all reporting fixed local service providers (CLECs & ILECs).

²⁸ Local Resellers fall into another U.S. Census Bureau industry (Telecommunications Resellers) and therefore data for these providers is not included in this industry.

²⁹ Affected Entities in this industry include all reporting wireless carriers and service providers.

Table 3. Cable Entities Data

Cable Entities	Size Standard	Total Firms	Small Firms	% Small Firms in Industry
Cable System Operators (Telecom Act Standard) Small Cable Operator	Serves fewer than 498,000 subscribers, either directly or through affiliates ³⁰ ³¹	530 ³²	524 ³³	98.87%
Cable Companies and Systems (Rate Regulation) Small Cable Company	Serves 400,000 or fewer subscribers nationwide ³⁴ ³⁵	530 ³⁶	523 ³⁷	98.51%
Cable Companies and Systems (Rate Regulation) Small Cable System (headends)	Serves 15,000 or fewer subscribers ³⁸	4,545 ³⁹	3,965 ⁴⁰	87.24%

D. Description of Economic Impact and Projected Reporting, Recordkeeping and Other Compliance Requirements for Small Entities

7. The RFA directs agencies to describe the economic impact of proposed rules on small entities, as well as projected reporting, recordkeeping and other compliance requirements, including an estimate of the classes of small entities which will be subject to the requirements and the type of

³⁰ Pursuant to 47 U.S.C. § 543(m)(2) of the Communications Act of 1934, as amended, the size standard for a “small cable operator,” is a cable operator that, directly or through an affiliate, serves in the aggregate fewer than 1% of all U.S. subscribers and has no affiliation with entities with gross annual aggregate revenues exceed \$250,000,000.

³¹ *FCC Announces Updated Subscriber Threshold for the Definition of Small Cable Operator*, Public Notice, DA 23-906 (MB 2023) (2023 Subscriber Threshold PN). In the Public Notice, the Commission determined that there were approximately 49.8 million cable subscribers in the United States at that time using the most reliable source publicly available. This threshold will remain in effect until the Commission issues a superseding Public Notice. See 47 CFR § 76.901(e)(1).

³² Based on Commission staff review of S&P Global Market Intelligence, S&P Capital IQ Pro, U.S., *Broadband & Video Subscribers by Geography Q3-2025(June 2025)* data. (last visited Sept. 15, 2025).

⁴⁰ *Id.*

professional skills necessary for preparation of the report or record.⁴¹

8. The *NPRM* does not propose any changes to the Commission's current information collection, reporting, recordkeeping, or compliance requirements for collecting regulatory fees from small entities. Small and other regulated entities are required to pay regulatory fees on an annual basis. The cost of compliance with the annual regulatory assessment for small entities is the amount assessed for their regulatory fee category, which may increase or decrease based upon the methodology employed by the Commission in FY 2026 to determine the allocation of direct FTEs within the core bureaus, and indirect FTEs in non-core bureaus and offices. Complying with their annual regulatory assessment should not require small entities to hire professionals to comply, as they are accustomed to paying the annual fees and most should be familiar with both the Commission's current collection process.

9. For small licensees experiencing financial hardship, access to fee relief, via options such as waiver, reduction, deferral and/or installment payment of their regulatory fees may be available, and small entities may be exempt from paying a regulatory fee if the assessed fee is below the de minimis threshold that the Commission has established.⁴²

E. Discussion of Significant Alternatives Considered That Minimize the Significant Economic Impact on Small Entities

10. The RFA directs agencies to provide a description of any significant alternatives to the proposed rules that would accomplish the stated objectives of applicable statutes, and minimize any significant economic impact on small entities.⁴³ The discussion is required to include alternatives such as: "(1) the establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities; (3) the use of performance rather than design standards; and (4) an exemption from coverage of the rule, or any part thereof, for such small entities."⁴⁴

11. *Assessment of Regulatory Fees.* The Commission's long-standing methodology for assessing regulatory fees reflects the full-time equivalent number of employees within the Commission's bureaus and offices, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities. In making such adjustments to establish our regulatory fee schedule for FY 2026, following a high-level staff analysis of the time utilized in the oversight and regulation of certain segments of the telecommunications industry, we propose reallocating certain indirect FTEs as direct to one of the Commission's core licensing bureaus. Our proposals reflect our conclusion that we can determine, with reasonable accuracy for this fiscal year, that certain FTE time from the Office of General Counsel, the Office of Economics and Analytics, and the Public Safety and Homeland Security Bureau is devoted to work that is sufficiently linked to the oversight and regulation of regulatory fee payors in a core bureau such that the FTE burden of that work should be allocated as direct to a licensing bureau for regulatory fee purposes.

12. For FY 2026, we propose that 61 indirect FTEs could be reallocated as direct FTEs to a relevant core bureau for purposes of calculating regulatory fees for FY 2026, which could reduce regulatory fee obligations for some small and other regulatory payees. Additionally, consistent with the

⁴¹ 5 U.S.C. § 603(b)(4).

⁴² 47 U.S.C. § 159A(d); 47 CFR § 1.1166. The standard for waiver, reduction and/or deferral of a regulatory fee in any specific instance under section 9A of the Communications Act and section 1.1166 of the Commission's regulations is for good cause if the waiver, reduction, or deferral (collectively, waiver) would serve the public interest. The Commission will not act on and will dismiss a request for waiver, reduction, deferral and/or installment payment relief filed by a fee payor if the fee payor is on red light, in accordance with the requirements of section 1.1910. *See* 47 CFR § 1.1910.

⁴³ 5 U.S.C. § 603(c).

⁴⁴ *Id.* § 603(c)(1)-(4).

Commission's determination for the past three fiscal years, we propose to reallocate 2 direct FTEs from the Media Bureau to be indirect FTEs because the nature of their work is sufficiently linked to work that is similar to that performed in the Enforcement Bureau, which has previously been categorized as indirect.⁴⁵ These reallocations result in an overall proposed increase of 59 indirect FTEs being reallocated as direct FTEs to core bureaus. While we considered alternatives to the reallocations we propose for FY 2026, we find that these proposed reallocations are consistent with section 9 of the Communications Act, which requires us to determine regulatory fees based on FTEs.⁴⁶

13. *Broadcast Regulatory Fees.* The *NPRM* considers and seeks comment on whether the Commission should continue to assess fees for full-power broadcast television stations based on the population covered by a full-service broadcast television station's contour, which may reduce the economic impact of the regulatory fees for some small licensees. While the population-based methodology increases fees for some licensees and reduces fees for others, the Commission believes the population-based metric better conforms with the service of broadcasting television to the American people.

F. Federal Rules that May Duplicate, Overlap, or Conflict with the Proposed Rules

14. None.

⁴⁵ See, e.g., *FY 2023 Report and Order*, 38 FCC Rcd at 8096, para. 70.

⁴⁶ 47 U.S.C. § 159(d) (providing that "the Commission shall by rule amend the schedule of regulatory fees established under this section if the Commission determines that the schedule requires amendment so that such fees reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities.").
